SPA SIMPLU

How to Get the Best Results from your Mist® by Spa Simplu®

IMPORTANT BEFORE YOU USE:

Congratulations! We are delighted that you have invested in Mist by Spa Simplu. We highly recommend running your Mist steamer once without towels before using on your clients or yourself. Your Mist unit comes with four parts:

1. Base Unit
2. Steam Disperser Tray
3. Towel Container
4. Towel Separator

Before you use, simply fill the base unit with cold water filled to the MAX marker line. Place the Steam Disperser Tray on top of the Base Unit and place the EMPTY Towel Container on top of the Steam Disperser Tray. Run the unit for 30 minutes and now you are all set to start steaming towels.

As with any electrical piece of equipment and hot water, HANDLE WITH CARE, and keep out of reach of children.

How to use:

1. Fill the bottom base unit with cold water to no more than the "MAX" marker line.
2. If you choose to scent the water and steam with essential oils, please only use water-soluble oils and add approximately 7 drops per 500ml of water. The oils can be dropped directly into the cold water.
3. Roll the towels you choose to use and place them standing upright into the Towel Container. To make this process more simple, we have included a handy Towel Separator to hold the dry towels in place once they have been rolled. We recommend Wrap® by Spa Simplu® towels but you may use any towels depending on size and thickness.
4. Place the middle Steam Disperser unit over the base and the Towel Container on top of the Steam Disperser.
5. Ensure that your Mist is in a well-ventilated area and on a level, hard surface.
6. Hit the SET TIME button and add time in increments of 5 minutes by pressing the + or – button. You can program Mist to run for up to two hours.
7. Hit the ON button and your Mist will start heating and steaming the towels quickly and efficiently.
8. The front water level will tell you when to add more water. Simply pour extra water into the side handles of the middle Steam Disperser – you do not need to lift the Towel Container or Steam Disperser to add more water. You can also add additional drops of essential oils through this external spout..
9. The top Towel Container is dish-washer safe and we recommend wiping the base unit with a damp towel at the end of every day.
10. Once per week we recommend filling the base with hot water, adding lemon slices and leave overnight with the unit turned OFF. The acid in the lemon will break down any build up or residue.

IMPORTANT SAFETY NOTICES:

- **This is an electrical piece of equipment that uses hot/boiling water. Keep in a well-ventilated area away from children on a hard, stable surface.**
- **Open the Towel Container carefully by the side handles to gently let any excess steam evaporate.**
- **The towels will also be very hot so DO NOT handle with bare hands. We recommend removing with our Hold® tongs.**

Care instructions – Base Unit and Towel Disperser Tray

Gently wipe with a damp cloth after each use for optimum performance. As this is an electrical piece of equipment, unplug the base first from any power outlet. Do not immerse in water or any other liquids. Warm soapy water can be used to clean water reservoir. Take care when cleaning all external parts and to not let water into any vents. Once per week, we recommend using a descaling product or fresh lemon slices. If you do use a descaling product, follow their instructions. The base unit is NOT dishwasher safe.

Care instructions – Towel Container and Towel Separator
We recommend cleaning these pieces at the end of every day of use. You can wash in warm soapy water or place in the dishwasher. This piece of the equipment may crack or discolor with use. If cracking begins to occur we recommend replacing this part. It is natural for this piece to wear down with continued use but daily care will prolong the Towel Container's life. Additional parts can be purchased directly from our website.

Frequently Asked Questions:

Can I use essential or aromatherapy oils with my Mist?

Yes, you can, but you MUST use a water-soluble essential oil ONLY. Our Spa Simplu oils have been formulated specifically for use with our Mist steamer Most other oils will cause damage and we cannot warranty the unit if used with any other oils. Simply drop 5-7 drops directly into the water in the base of the unit before turning on the unit and the aroma will infuse through the towels. As you add water through the external water spout, you can also top up the Spa Simplu Scent oils.

We cannot warranty your Mist steamer if you use ANY oil that is not water soluble.

Can I use my own towels in the chamber?
Yes, absolutely. Depending on the size and thickness you will need to test the best way to place the towels in the Towel Container. We specifically developed our Wrap towels to give all of the length you need for most body parts without having the extra bulk of un-needed width.

Warranty Information

How to Register Your Warranty

In order to register your 1 Year Warranty, you must complete the Warranty Form online: www.spa-simplu.com/warranty

This must be completed no later than 30 days from the date on your proof of purchase.

If the product proves defective during the warranty period, Spa Simplu LLC, at its option, will:
(1) Replace, repair or exchange the unit if found defective
(2) Request the original unit back first for further test before a replacement, repair or exchange is offered

This warranty shall not apply to any defect, failure or damage caused by improper use, improper or inadequate maintenance and care. Spa Simplu LLC shall not be obligated:

(a) To repair damage resulting from attempts by personnel other than Spa Simplu LLC
(b) To repair damage, malfunction or degradation of performance resulting from improper use
(c) To repair an item that has been modified
(d) To repair an item that has malfunctioned due to failure to clean or maintain cleaning as per the instructions provided
(e) To repair the device within 1 year if proof of purchase is not presented, warranty registration is incomplete and/or not returned within the time stated on the registration form
(f) To repair the device after the warranty expires
(g) To repair items which have been abused, misused or tampered with in any way
(h) To repair or replace if used with other substances other than water
(i) To repair or replace if used with any essential oils that are NOT water soluble, i.e., any oil that is NOT a Spa Simplu oil/fragrance

Spa Simplu LLC disclaims any injury caused when using this device.
