

8000

PARAGON® SIGNATURE SKINCARE SYSTEM, MODULAR

The legendary *Paragon® 8000 Signature Skincare System* is the most sought-after professional system. It is the only system still hand-built in America, so you know that all parts and service will still be here long after your initial purchase. Featuring the four essential aesthetic functions, the 8000 is modular and customizable to the aesthetician's needs. The 8000's modular design allows you to adapt and increase functions as your business and service menu grow. In addition, each function can be removed and serviced separately.
