Feature

Stainless steel

Perfectly aligned, hand-filed precision tips

25 degree slant

Perfectly calibrated tension

Benefit

Durable, easy to clean

To grab every hair every time, smooth pulling power.

Perfect angle for working against brow bone.

Comfort & control

Product Usage

Use a warm washcloth to help open pores for easier tweezing. Always tweeze one hair at a time in the direction of hair growth, pulling smoothly in one motion at the root to avoid breakage. To increase spring tension, gently pull the two halves of the tweezer slightly apart. Once you have increased the tension, you cannot decrease it. Clean tips after each use. Store with protective cap.

Tips & Tricks

Flip the Slant to use the pointed tip on stubble and fine hairs

Works Great With
Point Tweezer
Brow Shaping Scissors & Brush
