

## Material Safety Data Sheet

Farmaesthetics Product: *Complexion Conserve*

- Section I.      **Identification**  
Product Name: *Complexion Conserve*  
Formula # BBF-810 ORGANIC  
Hazard Rating: Non-Hazardous
- Section II.     **Product Hazard Data**  
Product is not hazardous
- Section III.    **Physical Data**  
Appearance: Pale yellow to golden yellow liquid  
Specific Gravity: 0.87-0.95  
Solubility: Soluble in alcohol and oils. Insoluble in water.
- Section IV.    **Fire and Explosion Hazard Data**  
Flash Point: Flash Point: >100 °C  
Special Fire Fighting Procedures: None  
Fire and Explosion Hazards: None
- Section V.      **Reactivity Data**  
Stability: Stable
- Section VI.    **Toxicity and Health Hazard Data**  
A.      Exposure Limits: None known  
  
B.      Exposure Effects:  
Inhalation: May be harmful if inhaled  
Skin: No adverse effects  
Eye: Possible irritation  
Ingestion: May be harmful if swallowed  
  
C.      First Aid:  
Inhalation: Remove to fresh air  
Skin: Wash area with soap and water  
Eye: Flush with water  
Ingestion: Induce vomiting
- Section VII.    **Ventilation and Personal Protection**  
Ventilation: N/A  
Respiration: N/A  
Skin: N/A  
Eye: Avoid contact with eyes
- Section VIII.   **Special Storage and Handling Precautions**  
Avoid extreme heat and freezing temperatures; do not introduce water
- Section IX.     **Spills, Leaks and Disposal Procedures**  
While there are no special precautions for disposing of this product, disposal may be subject to federal, state or local laws
