4 FIRST AID MEASURES

			4. FIRST AID WEASURES
4.1	First Aid:	Ingestion:	If ingested, do not induce vomiting. If product has been swallowed, drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer water or milk. Never give water or milk to an unconscious person. Contact the nearest Poison Control Center or local emergency number. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed.
		Eyes:	Splashes are not likely; however, if product gets in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. If irritation occurs, contact a physician.
		Skin:	If irritation occurs and product is on the skin, rinse thoroughly with lukewarm water, followed by a thorough washing of the affected area with soap and water. If irritation, redness or swelling persists, contact a physician immediately.
		Inhalation:	Remove victim to fresh air.

SAFETY DATA SHEET

Page 2 of 5 SDS-386

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, GHS & 1272/2008/EC Standards SDS Revision: 1.3 SDS Revision Date: 8/25/2017

4. FIRST AID MEASURES - cont'd Effects of Exposure: If product is swallowed, may cause nausea, vomiting and/or diarrhea and central nervous system Ingestion: Irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. Eyes: May be irritating to skin in some sensitive individuals, especially after prolonged and/or repeated contact. Skin: Vapors of this product may be slightly irritating to the nose, throat and other tissues of the respiratory Inhalation: system. Symptoms of overexposure can include coughing, wheezing, nasal congestion, and difficulty breathing. Inhalation of vapors exceeding the levels listed in Section 3 (Composition and Ingredient Information) can cause central nervous system depression (e.g., drowsiness, dizziness, headaches, nausea). 4.3 Symptoms of Overexposure: Symptoms of skin overexposure in individuals may include redness, itching, and irritation of affected areas. Overexposure in eyes may cause redness, itching and watering. Acute Health Effects: 4.4 Mild to moderate irritation to eyes and skin near affected areas. Additionally, high concentrations of vapors can cause drowsiness, dizziness, headaches and nausea. 4.5 Chronic Health Effects: None known. 4.6 Target Organs Eyes, skin and respiratory system. 4.7 Medical Conditions Pre-existing skin, eye and respiratory disorders. **HEALTH** 1 Aggravated by Exposure: **FLAMMABILITY** 2 1 PHYSICAL HAZARDS PROTECTIVE EQUIPMENT Α **EYES** SKIN 5. FIREFIGHTING MEASURES Fire & Explosion Hazards: This product is not a flammable liquid. When involved in a fire, this product may ignite and decompose to form toxic gases (e.g., CO, CO₂, NO_x). Uncontrolled polymerization may occur at high temperatures resulting in explosions or rupture of storage containers. Extinguishing Methods: 5.2 Water, Foam, CO₂, Dry Chemical As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) Firefighting Procedures: 5.3 and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas. If necessary, rinse contaminated equipment with soapy water before returning to service. 6. ACCIDENTAL RELEASE MEASURES Spills: Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective For small spills (e.g., < 1 gallon (3.8 L)) wear appropriate personal protective equipment (e.g., goggles, gloves). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse. For large spills (e.g., ≥ 1 gallon (3.8 L)), deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water. 7. HANDLING & STORAGE INFORMATION Work & Hygiene Practices: 7.1 Storage & Handling: 72 Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Do not store in damaged or unmarked containers or storage devices. Keep containers securely closed when not in use. Special Precautions Spilled material may present a slipping hazard if left unattended. Clean all spills promptly. 8. EXPOSURE CONTROLS & PERSONAL PROTECTION 8.1 Exposure Limits: ACGIH NOHSC OSHA OTHER ppm (mg/m³) ES-ES-STEL STEL CHEMICAL NAME(S) TLV **ES-TWA** PEAK PEL IDLH HYDROQUINONE NA NA NF NF NA NA 50 2 8 2 Ventilation & Engineering When working with large quantities of product, provide adequate ventilation (e.g., local exhaust ventilation, fans). Ensure Controls: that an eyewash station, sink or washbasin is available in case of exposure to eyes. 8.3 Respiratory Protection: No special respiratory protection is required under typical circumstances of use or handling. In instances where vapors or sprays of this product are generated, and respiratory protection is needed, use only protection authorized by 29 CFR §1910.134, applicable U.S. State regulations, or the Canadian CAS Standard Z94.4-93 and applicable standards of Canadian Provinces, EC member States, or Australia

SAFETY DATA SHEET

	8.	EXPOSURE CONTROLS & PERSONAL PROTECTION – cont'd
8.4	Eye Protection:	Wear protective eyewear (e.g., safety glasses with side-shield) at all times when handling this product. Always use protective eyewear when cleaning spills or leaks. Contact lenses pose a special hazard; soft lenses may absorb and concentrate irritants.
8.5	Hand Protection:	AVOID SKIN CONTACT DUE TO SENSITIZING POTENTIAL. If anticipated that prolonged & repeated skin contact will occur during use of this product, wear latex or rubber gloves for routine industrial use. If necessary, refer to U.S. OSHA 29 CFR §1910.138, the appropriate standards of Canada, of the E.C. member states.
8.6	Body Protection:	AVOID SKIN CONTACT DUE TO SENSITIZING POTENTIAL. However, no special body protection is required under typical circumstances of use and handling. If necessary, refer to appropriate standards of Canada, the E.C. member states, or U.S. OSHA.

		10 STABILITY & REACTIVITY
10.1	Stability	10. STABILITY & REACTIVITY Stable under ambient conditions when stored preparty (see Section 7. Storage and Handling)
10.1	Stability: Hazardous Decomposition	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling).
10.1	Stability: Hazardous Decomposition Products:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling).
	Hazardous Decomposition	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures.
10.2 10.3 10.4	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame.
10.2	Hazardous Decomposition Products: Hazardous Polymerization:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame.
10.2 10.3 10.4	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide).
10.2 10.3 10.4 10.5	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION
10.2 10.3 10.4 10.5	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES
10.2 10.3 10.4 10.5	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data.
10.2 10.3 10.4 10.5 11.1 11.2 11.3	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data. See Section 4.4
10.2 10.3 10.4 10.5 11.1 11.2 11.3 11.4	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data.
10.2 10.3 10.4 10.5 11.1 11.2 11.3 11.4 11.5	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity: Chronic Toxicity:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data. See Section 4.4 See Section 4.5
10.2 10.3 10.4 10.5 11.1 11.2 11.3 11.4 11.5	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity: Chronic Toxicity: Suspected Carcinogen:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data. See Section 4.4 See Section 4.5 No This product is not reported to produce reproductive toxicity in humans. This product is not reported to produce mutagenic effects in humans.
10.2 10.3 10.4 10.5 11.1 11.2 11.3 11.4 11.5	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity: Chronic Toxicity: Suspected Carcinogen: Reproductive Toxicity: Mutagenicity: Embryotoxicity:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data. See Section 4.4 See Section 4.5 No This product is not reported to produce reproductive toxicity in humans. This product is not reported to produce mutagenic effects in humans. This product is not reported to produce embryotoxic effects in humans.
10.2 10.3 10.4 10.5	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity: Chronic Toxicity: Suspected Carcinogen: Reproductive Toxicity: Mutagenicity: Embryotoxicity: Teratogenicity:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). **The product has not been tested for specific toxicity data.** See Section 4.4 See Section 4.5 No This product is not reported to produce reproductive toxicity in humans. This product is not reported to produce embryotoxic effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce teratogenic effects in humans.
10.2 10.3 10.4 10.5 11.1 11.2 11.3 11.4 11.5 11.6	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity: Chronic Toxicity: Suspected Carcinogen: Reproductive Toxicity: Mutagenicity: Embryotoxicity: Teratogenicity: Reproductive Toxicity:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data. See Section 4.4 See Section 4.5 No This product is not reported to produce reproductive toxicity in humans. This product is not reported to produce mutagenic effects in humans. This product is not reported to produce embryotoxic effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce reproductive effects in humans. This product is not reported to produce reproductive effects in humans. This product is not reported to produce reproductive effects in humans.
10.2 10.3 10.4 10.5 11.1 11.2 11.3 11.4 11.5 11.6	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity: Chronic Toxicity: Suspected Carcinogen: Reproductive Toxicity: Mutagenicity: Embryotoxicity: Teratogenicity: Reproductive Toxicity: Irritancy of Product:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric ormuriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data. See Section 4.4 See Section 4.5 No This product is not reported to produce reproductive toxicity in humans. This product is not reported to produce mutagenic effects in humans. This product is not reported to produce embryotoxic effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce reproductive effects in humans. This product is not reported to produce reproductive effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce reproductive effects in humans. See Section 4.2
10.2 10.3 10.4 10.5 11.1 11.2 11.3 11.4 11.5 11.6	Hazardous Decomposition Products: Hazardous Polymerization: Conditions to Avoid: Incompatible Substances: Routes of Entry: Toxicity Data: Acute Toxicity: Chronic Toxicity: Suspected Carcinogen: Reproductive Toxicity: Mutagenicity: Embryotoxicity: Teratogenicity: Reproductive Toxicity: Irritancy of Product: Biological Exposure Indices:	Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO ₂). May occur, if exposed to extremely high temperatures. Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources, sparks, flame. This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric ormuriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION Inhalation: NO Absorption: YES Ingestion: YES The product has not been tested for specific toxicity data. See Section 4.4 See Section 4.5 No This product is not reported to produce reproductive toxicity in humans. This product is not reported to produce mutagenic effects in humans. This product is not reported to produce embryotoxic effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce teratogenic effects in humans. This product is not reported to produce reproductive effects in humans. See Section 4.2 NE

SAFETY DATA SHEET

Page 4 of 5 SDS-386

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, GHS & 1272/2008/EC Standards SDS Revision: 1.3 SDS Revision Date: 8/25/2017

14. TRANSPORTATION INFORMATION The basic description (ID Number, proper shipping name, hazard class & division, packing group) is shown for each mode of transportation. Additional descriptive information may be required by 49 CFR, IATA/ICAO, IMDG and the CTDGR. NOT REGULATED 49 CFR (GND): 14.2 IATA (AIR): NOT REGULATED IMDG (OCN): NOT REGULATED 14.3 TDGR (Canadian GND): NOT REGULATED 14.4 14.5 ADR/RID (EU): NOT REGULATED SCT (MEXICO): NOT REGULATED 14.6 ADGR (AUS): NOT REGULATED 14.7 15. REGULATORY INFORMATION 15.1 SARA Reporting This product does not contain any substances subject to SARA Title III, Section 313 reporting requirements. 15.2 SARA TPQ: There are no specific Threshold Planning Quantities for the components of this product. The components of this product are listed on the TSCA Inventory. 15.3 TSCA Inventory Status: CERCLA 15.4 Reportable Quantity This product complies with the appropriate sections of the Food and Drug Administration's 21 CFR subchapter G 15.5 Other Federal Requirements: (Cosmetics). 15.6 Other Canadian Regulations: This product has been classified according to the hazard criteria of the CPR and the Safety Data Sheet contains all of the information required by the CPR. The components of this product are listed on the DSL/NDSL. None of the components of this product are listed on the Priorities Substances List. WHMIS D2B (Other Toxic Effects) Hydroxyethyl Methacrylate (HEMA) is found on the following state criteria list: NJ and PA 15.7 State Regulatory Information: None of the ingredients in this product, present in a concentration of 1.0% or greater, are listed on any of the following state criteria lists: California Proposition 65 (CA65), Delaware Air Quality Management List (DE), Florida Toxic Substances List (FL), Massachusetts Hazardous Substances List (MA), Michigan Critical Substances List (MI), Minnesota Hazardous Substances List (MN), New Jersey Right-to-Know List (NJ), New York Hazardous Substances List (NY), Pennsylvania Right-to-Know List (PA), Washington Permissible Exposures List (WA), Wisconsin Hazardous Substances List (WI). 15.8 Other Requirements: NA 16. OTHER INFORMATION 16.1 Other Information: WARNING! MAY CAUSE AN ALLERGIC SKIN REACTION. CAUSES SERIOUS EYE IRRITATION. Use only as directed. Discontinue use immediately if irritation develops. Avoid breathing dust/fume/vapors. Wash thoroughly with soap and water after handling. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves and eyewear. IF ON SKIN - Wash with soap and water. IF IN EYES - Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. If skin irritation or a rash occurs - Get medical advice/attention. If eye irritation persists, get medical attention. For specific first aid treatment (see section 4 of this Safety Data Sheet). Wash contaminated clothing before reuse. Store in a cool place. KEEP OUT OF REACH OF CHILDREN. Terms & Definitions: See last page of this Safety Data Sheet. 16.2 This Safety Data Sheet is offered pursuant to OSHA's Hazard Communication Standard, 29 CFR §1910.1200. Other 16.3 Disclaimer government regulations must be reviewed for applicability to this product. To the best of ShipMate's & OPI's knowledge. the information contained herein is reliable and accurate as of this date; however, accuracy, suitability or completeness is not guaranteed and no warranties of any type, either expressed or implied, are provided. The information contained herein relates only to the specific product(s). If this product(s) is combined with other materials, all component properties must be considered. Data may be changed from time to time. Be sure to consult the latest edition. 16.4 Prepared for: OPI Products, Inc. 13034 Saticoy Street 0.91No. Hollywood, CA 91605 USA Tel: +1 (818) 759-2400 Fax: +1 (818) 759-5776 http://www.opi.com 16.5 Prepared by: ShipMate, Inc. SAFETY DATA SHEET

Page 5 of 5

SDS-386

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, GHS & 1272/2008/EC Standards

SDS Revision: 1.3

SDS Revision Date: 8/25/2017

DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

GENERAL INFORMATION:

CAS No.	Chemical Abstract Service Number
RTECS No.	Registry of Toxic Effects of Chemical Substances Number
EINECS No.	European Inventory of Existing Commercial Chemical Substances Number

EXPOSURE LIMITS IN AIR:

ACGIH	American Conference on Governmental Industrial Hygienists
IDLH	Immediately Dangerous to Life and Health
NOHSC	National Occupational Health and Safety Commission (Australia)
OSHA	U.S. Occupational Safety and Health Administration
PEL	Permissible Exposure Limit
STEL	Short Term Exposure Limit
TLV	Threshold Limit Value
TWA	Time Weighted Average

FIRST AID MEASURES:

CPR	Cardiopulmonary resuscitation - method in which a person whose heart has
	stopped receives manual chest compressions and breathing to circulate blood
	and provide oxygen to the body.

HAZARDOUS MATERIALS IDENTIFICATION SYSTEM: HMIS

HEALTH, FLAMMABILITY & REACTIVITY RATINGS:

0	Minimal Hazard
1	Slight Hazard
2	Moderate Hazard
3	Severe Hazard
4	Extreme Hazard

PERSONAL PROTECTION RATINGS:

Α			
В			
С		型	
D		型	
Ε			
F			

G				
Н				
I				
J				
K	G		M	
Х	Consult y	our supe andling d	rvisor or irections.	SOPs for

OTHER STANDARD ABBREVIATIONS:

Carc	Carcinogenic
Irrit	Irritant
NA	Not Available
NR	No Results
ND	Not Determined
NE	Not Established
NF	Not Found
SCBA	Self-Contained Breathing Apparatus
Sens	Sensitization
STOT RE	Specific Target Organ Toxicity – Repeat Exposure
STOT SE	Specific Target Organ Toxicity – Single Exposure

NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

FLAMMABILITY LIMITS IN AIR:				
Autoignition Temperature	Minimum temperature required to initiate combustion in air with no other source of ignition			
LEL	Lower Explosive Limit - lowest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source			
UEL	Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source			

HAZARD RATINGS:

Minimal Hazard		FLAMMABILITY			
1	Slight Hazard	\			
2	Moderate Hazard	REACTIVITY			
3	Severe Hazard				
4	Extreme Hazard				
ACD	Acidic				
ALK	Alkaline				
COR	Corrosive	/ \ \ \ \ \			
W	Use No Water	HEALTH			
ОХ	Oxidizer	SPECIAL			
TREFOIL	Radioactive	PRECAUTIONS			

TOXICOLOGICAL INFORMATION:

LD ₅₀	Lethal Dose (solids & liquids) which kills 50% of the exposed animals			
LC ₅₀	Lethal concentration (gases) which kills 50% of the exposed animal			
ppm	Concentration expressed in parts of material per million parts			
TD _{io}	Lowest dose to cause a symptom			
TCLo	Lowest concentration to cause a symptom			
TD _{Io} , LD _{Io} , & LD _o or	Lowest dose (or concentration) to cause lethal or toxic effects			
TC, TC _o , LC _{io} , & LC _o				
IARC	International Agency for Research on Cancer			
NTP	National Toxicology Program			
RTECS	Registry of Toxic Effects of Chemical Substances			
BCF	Bioconcentration Factor			
TL _m	Median threshold limit			
log Kow or log Koc	Coefficient of Oil/Water Distribution			

REGULATORY INFORMATION:

WHMIS	Canadian Workplace Hazardous Material Information System				
DOT	U.S. Department of Transportation				
TC	Transport Canada				
EPA	U.S. Environmental Protection Agency				
DSL	Canadian Domestic Substance List				
NDSL	Canadian Non-Domestic Substance List				
PSL	PSL Canadian Priority Substances List				
TSCA	SCA U.S. Toxic Substance Control Act				
EU	European Union (European Union Directive 67/548/EEC)				
WGK	Wassergefährdungsklassen (German Water Hazard Class)				

WORKPLACE HAZARDOUS MATERIALS IDENTIFICATION (WHMIS) SYSTEM:

0	®		(2)	Θ	(%)		
Class A	Class B	Class C	Class D1	Class D2	Class D3	Class E	Class F
Compressed	Flammable	Oxidizing	Toxic	Irritation	Infectious	Corrosive	Reactive

CLP/GHS (1272/2008/EC) PICTOGRAMS:

	③		\Diamond			\Diamond		*
GHS01	GHS02	GHS03	GHS04	GHS05	GHS06	GHS07	GHS08	GHS09
Explosive	Flammable	Oxidizer	Pressurized	Corrosive	Toxic	Harmful Irritating	Health Hazard	Environment
