## Spa Slipper Sanitizing Guidelines

To properly and effectively sanitize your Spa Slippers, you must use a **NEUTRAL** disinfectant cleaner that **DOES NOT** contain **ALCOHOL, BLEACH, ETHANOL, OR ABRASIVES**.

Yeah Baby has a ready-to-use neutral disinfectant cleaner available to help quickly and effectively sanitize your spa slippers in 3 easy steps. See below cleaning instructions for details.

Item #SG561  
\$19.95/Gallon

### Cleaning Instructions:

**Step 1:** Spray slippers with cleaning solution. **Do not soak slippers in cleaning solution.**  
**Do not let cleaner dry on slipper surface.** Rinse immediately with water.

**Step 2:** Rinse immediately with water.

**Step 3:** Air Dry.

You're finished!

Disclaimer: If you choose to sanitize your slippers with a cleaner that contains Alcohol, Bleach, Ethanol, or Abrasives, this will result in degradation of the slipper's PVC plastic as well as the logo imprint(if applicable) found on the product. All product warranties will be null and void.
