
Sea Kelp & Green Tea Masque

This innovative dry mask combines Moroccan Rhassoul Clay with a nourishing botanical blend that includes sea kelp and green tea extract. This remarkable treatment removes toxins and impurities and refines skin texture as it tones and replenishes minerals essential to healthy skin. Mix with water, yogurt, milk or puréed fruit according to skin type. Recommended for normal to oily complexions.

Ingredients

Cocos Nucifera (Coconut) Fruit Juice Powder, Moroccan Lava (Rhassoul) Clay, Montmorillonite (French Green) Clay, Kaolin Clay, Avena Sativa (Oat) Kernel Flour, Camellia Sinensis (Green Tea) Leaf Extract, Ascophyllum Nodosum (Kelp) Powder, Bentonite.

Key Ingredients

- **Bentonite Clay:** A combination of montmorillonite and volcanic ash, this highly absorbent clay pulls toxins from deep within the skin. It is a swelling clay that soaks up toxins on its exterior wall and then slowly draws them into the interior of the clay where there are held in a sort of repository. Because of its strong drawing abilities, bentonite clay is an excellent choice for oily complexions.
- **Coconut Powder:** Effective skin moisturizer. Skin softener.
- **French Argiletz Clays:** The rare mineral-rich clays are mined in an exclusive region of France and sun-dried for optimum purity.
- **Green Tea Extract:** Recognized worldwide as a powerful source of antioxidants, the benefits of green tea are now recognized outside its native Asia and India. Those antioxidants, known as polyphenols, are free radical scavengers - gobbling up the damaging environmental compounds that adversely affect the skin.
- **Kaolin Clay:** Originally harvested from the Kaoling Hill in the Kiangsi Providence of China, this white clay is surprisingly absorbent. It draws out impurities and toxins and is rich in minerals, including: silica, iron, magnesium, calcium, sodium and zinc.
- **Kelp Powder:** Contains minerals and proteins to nourish the skin. Contains acids that penetrate the skin and draw out impurities.
- **Moroccan Rhassoul Clay:** Absorbs impurities from the skin. Cleanses deep, clearing pores and tightening skin without harsh scrubs or chemicals. Rhassoul contains naturally high levels of skin-loving, beneficial minerals such as magnesium, calcium, potassium and iron. Helps improve skin tone, texture, elasticity, and clarity while eliminating dryness and flakiness.
- **Oat Flour:** Has soothing properties. Especially beneficial for irritated skin.

Benefits

- Can be personalized for skin type.
 - Helps absorb excess oil. Good for normal to oily skin, especially acne-prone skin.
 - Helps remove toxins and impurities from the skin.
 - Refines skin texture as it tones and replenishes minerals essential to healthy skin.
 - Contains powerful antioxidants to fight damaging free radicals in the skin.
 - Tones and replenishes minerals essential for healthy skin as it moisturizes.
 - Phthalate free.
 - Vegan.

Usage

1. Blend 2 Tbs. powder with 1 Tbs. "mixer" (see below) according to guest's skin type.

Skin Type	Suggested Mixer
Combination	Yogurt
Mature	Carrot juice
Oily	Milk
Dry	Heavy cream

2. Apply a thin layer of masque onto the face and neck, carefully avoiding the eye area.
3. After 5-10 minutes, rinse with warm water or remove with warm, moist towels.

Sizes

Retail – 3.8 oz. (BL133)

Backbar – 20 oz. (BL132)
