
Pumpkin Glow Body Scrub

The enzymes in pumpkin pulp combine with pumpkin seed oil to dissolve dull, dead cells, revealing the healthy radiant skin underneath. Pure cane sugar is enveloped in this creamy blend of nourishing oils and butters, spiked with warm, aromatic essential oils for a soothing treat. As with all Bella Luccè scrubs, our Pumpkin Glow emulsifies into a creamy lotion when applied, then rinses clean for delectably soft skin without oily residue.

Ingredients

Organic Cane Sugar (Sucrose), Certified Organic Helianthus Annuus (Sunflower) Seed Oil, Certified Organic Glycine Soja (Soybean) Oil, Cocos Nucifera (Coconut) Oil, Stearic Acid (Vegetable-Derived), Cucurbita Pepo (Pumpkin) Pulp, Polysorbate 20, Perfume (Fragrance), Certified Organic Butyrospermum Parkii (Shea) Butter, Cucurbita Pepo (Pumpkin) Seed Oil, Tocopheryl Acetate (Vitamin E). 85% Organic.

Key Ingredients

- Coconut Oil: Effective skin moisturizer. Skin softener.
- Organic Shea Butter: Revered for centuries by the women of Africa, shea butter is a renowned skin soother. Obtained from the karite nuts of a tree native to the West African tropics, the supple butter's high concentration of fatty acids gives it the ability to deeply moisturize and retain the elasticity of the skin, while also protecting against the damaging effects of the sun.
- Organic Soybean Oil: Helps stimulate the production of collagen, elastin, proteoglycans, and structural glycoproteins.
- Organic Sugar: Pure organic sugar crystals gently polish skin by mechanically removing the web of dead cells which routinely cling to the skin and dull the complexion.
- Organic Sunflower Oil: The seeds of that brilliantly colored yellow flower yield this versatile oil. Rich in essential fatty acids, sunflower oil conditions and regenerates the skin with generous doses of vitamins A and E.
- Pumpkin Pulp: Beta-carotene (a carotenoid better known as vitamin A), found in the bright orange pulp of pumpkins is known to protect skin cells from oxidative damage caused by free radicals. Pumpkin is a good source of copper and zinc. Copper helps in the production of collagen, elastin, and melanin. Zinc helps control the production of oil in the skin and helps repair inflamed tissue.
- Pumpkin Seed Oil: Sometimes referred to as green gold, cold pressed pumpkin seed oil is one of the most nutritious oils available today. Abundant in essential Omega fatty acids, and a bevy of vitamins including A, C, and E, the oil has a pleasant nutty aroma and a beautiful orange coloring.

Benefits

- A double exfoliation system, created with pure cane sugar and pumpkin, gently and effectively sloughs dead skin to encourage cell renewal and reveal a more radiant complexion.
 - Rich in essential fatty acids, sunflower oil conditions and regenerates the skin with generous doses of vitamins A, C, and E.
 - Helps stimulate the production of collagen, elastin, proteoglycans, and structural glycoproteins.
 - Beta-carotene helps protect skin cells from oxidative damage caused by free radicals.
 - Innovative creamy-style scrub ensures less product loss and easier handling by spa technicians. Product will not run through your fingers and does not leave an oily mess.
 - Phthalate free and Vegan.
-

Usage

Massage scrub onto your guest's entire body. Use gentle circular motions and focus on rough patches. Assist your guest to the shower or remove any scrub residue with warm, moist towels.
