

Product Name

Cirépil® Non-Woven Strips

Benefits

- Non-Woven strips are tear-proof and wax will not bleed through, making them a cost effective alternative to ordinary strips.

Ingredients

N/A

Active Ingredient

N/A

Procedure

1. After depositing a small amount of strip wax onto the skin, place the edge of a disposable spatula at a 90° angle away from you.
 2. Glide the wax toward you in the direction of the hair growth for a thin, even application.
 3. Using the non-woven strip and a light pressure, smooth the strip several times. While remaining parallel and close to the skin, remove strip quickly in the opposite direction of hair growth.
