

Product Name

Eco-Fin™ Cubes

Benefits

- ◆ 100% disposable and biodegradable.
- ◆ No artificial fragrance or dyes.
- ◆ Delivers rich plant-based moisturizers.

Ingredients

Palm kernel oil, soy oil, shea butter, jojoba oil, vitamin E, organic coconut oil, and scent appropriate essential oils and/or natural and organic aromas.

Always check your state regulations to ensure that you are practicing within the scope of your license.

Preparation

1. Put one **Eco-Fin Biodegradable Liner** (C226T) into each **Eco-Sleeve** (Mitts: C3600. Booties: C3601).
2. Roll the edge of the liner over the cuff of the sleeve.

**Procedure**

1. Have your guest select the variety of Eco-Fin they would like to use during their treatment.
2. Drop the selected **Eco-Fin Cube** into the prepared **Eco-Sleeve**. Roll the sleeve over itself into a tidy roll.

Note: For convenience, you can order extra Eco-Sleeves for Mitts and Eco-Sleeves for Booties and prepare several rolls ahead of time. They can be kept warm in your hot towel cabi, or you can warm them in the microwave for approximately 30 seconds. Use caution when using microwaves as they vary and may require less heating time. Overheating can melt the plastic liners.

3. If you don't have a warmed sleeve already prepared, warm your rolled Eco-Sleeve containing the Eco-Fin Cube in the microwave for 30 seconds. *Use caution when using microwaves as they vary and may require less heating time. Overheating can melt the plastic liners.*
4. Unroll the **Eco-Sleeve** and slide it onto guest's hand or foot. Help disperse the rich emulsion evenly by massaging over the hands or feet.
5. Place warm herbal or electric mitts/booties onto the hands or feet.
6. Remove mitts/booties and liners after 10 to 15 minutes and massage remaining emulsion into hands and forearms or feet and legs. Discard used liners and reuse sleeves/herbal mitts & booties.
