

Turquoise Depilatory Wax

This designer wax is formulated with an extra light texture that allows the most fragile skinned clients to have flawless depilatory services with little to no irritation. The formula has all the convenience of a soft resin based wax with all the benefits of a “hard” wax. Turquoise in color, it simulates a hard wax as it slightly dries and shrinks up off the skin. Slightly thicker consistency than Cream Wax.

Usage

1. Heat wax until it flows easily.
2. Stir for consistency.
3. Bath temperature medium – high.
4. Use pre-wax spray to prepare for larger areas.
5. Use tea tree oil for small areas and for increased numbing.
6. Apply a light coat of dusting powder.
7. Apply wax in a thin layer in the direction of the hair growth.
8. Apply a strip of pella or muslin over the treatment area.
9. Rub strip in direction of hair growth to form a good bond.
10. Remove with a quick, close pull in the opposite direction of the hair growth parallel to the body.
11. Soothe treatment area with tea tree oil.

Active Ingredient:

- Pine Resin - Gentle even for sensitive skin types.
- Royal Blue Chamomile - Ability to soothe and calm irritated and inflamed skin.
- Azulene - Anti-inflammatory properties.
