

## **Amber Bottle w/Lid**

---

### **Usage**

- ❑ The dark glass protects essential oils from light and protects their delicate nature.
- ❑ You will want to clean your bottles before reusing them. You may clean them by washing with soap and water, then soaking them in rubbing alcohol. This will remove essential oils and give you a fresh start for a new blend or oil.
- ❑ Creating a massage oil blend, and storing large quantities of one essential oil.
- ❑ There is no limit on how many essential oils you can use in your blend.
