

## O2 Med

Sizes Available  
1.7oz

**Product Description:**

Super-absorbent silky oxygen emulsion treats painful pimples beneath the surface of the skin, improving cell metabolism, disinfecting bacteria and rehydrating as it works.

**Skin Conditions:**

For normal to oily skin with stubborn adult, hormonal or premenstrual acne.

**Benefits:**

- Disinfects even stubborn cases of acne
- Kills acne bacteria on contact
- Penetrates the follicle
- Balances the skin and rehydrates
- Fights free radicals

**Usage:** After cleansing, massage in as you would any facial moisturizer. Wait 1-3 minutes after applying before applying other products.

**Treatment Room:** n/a

**Featured Actives:**

**Stabilized Hydrogen Peroxide 3%** - As mentioned above, this ingredient kills acne bacteria, increases microcirculation in the skin, and helps the skin disinfect and achieve balance. The 2% strength is most effective for acne and hyperpigmentation.

**Retinyl Palmitate (Vitamin A)** - This essential vitamin for the skin favors tissue growth, helping improve the skin smoothness, firmness and texture. Applied topically, Vitamin A helps prevent scaling and dryness. Once Retinyl Palmitate enters the skin, it converts to retinoic acid and provides rejuvenation benefits as well as helping the skin fight off infection. An excellent aid in healing damaged skin tissue.

**Aloe Vera** - Improves the circulation and regenerates the cells. Its effects are soothing, astringent, and protecting. Aloe has been recognized for many years as also being anti-inflammatory and antibiotic. Aloe is also excellent for sensitive skins, rosacea conditions, and dry skin.

continued...

**Sodium PCA** - Serves as a high-performance humectant as it increases the skin moisture content. Derived from amino acids, Sodium PCA is beneficial for all skin types that are dehydrated.

**Chamomile Extract** - Has many beneficial properties including being anti-inflammatory, soothing, decongesting, antiseptic, and toning. It is also considered anti-itching, bactericidal with an ability to neutralize skin irritations. Excellent in the treatment of inflamed, itchy, or irritated acneic conditions.
