

Smoothing Repair Gel

Sizes Available
1.7oz

Product Description:

Exfoliating efficiency encourages skin clarity while minimizing fine lines and uneven pigment. Glycolic and lactic acids - both alpha hydroxy acids - balance each other out to minimize sensitivity and dehydration. Ideal to maintain skin clarity after professional facial treatments.

Skin Conditions:

For all skin types showing the first signs of aging.

Benefits:

- Reduces fine lines, sun damage and dry skin with out over-drying the skin
- Mild antiseptic quality helps keep skin clean and clear
- Calms, heals and hydrates
- Non-greasy, fast penetration

Usage: After cleansing, apply a very small amount and massage into skin until totally penetrated, follow with moisturizer and sunscreen. May be used once or twice daily.

Treatment Room: n/a

Featured Actives:

Glycolic Acid 5% - Dissolves the intercellular cement responsible for abnormal keratinization. In acne-prone skin, this is of particular importance as the pore is clogged and filled with keratinized dead cells. Glycolic acid helps with dry and oily conditions as it dissolves the dry and thin layers of the skin and unclogs the pore and helps other ingredients to penetrate. The stimulation achieved by a therapeutic glycolic product also increases circulation, smoothes uneven texture, and improves the overall function of the skin. Also beneficial for hyperpigmentation.

Lactic Acid 3% - An alpha hydroxy acid occurring in sour milk. This ingredient is used to increase the humectant capability of the corneum layer and reduces fine lines as it gently exfoliates.

Aloe Vera - Improves the circulation and regenerates the cells. Its effects are soothing, astringent and protecting. Aloe Vera has been recognized for many years as being anti-inflammatory and antibiotic. Aloe Vera is also excellent for sensitive skin, rosacea, and dry skin conditions.

Smoothing Repair Gel

Witch Hazel Extract - Known for its astringent properties. Witch Hazel extract is also toning, anti-inflammatory, and regulating. Derived from the bark and leaves of the tree, also known as hamamelis, it has a proficient vasoconstrictor effect that is excellent for inflamed, irritated, or acneic skin conditions. Research has shown that Witch Hazel is effective against free radicals and acts as a UVA and UVB absorber. It is also used in ointments for the treatments of sunburns, bruises, and insect bites.
