Featured Actives:

Kelp Extract - Kelp is found to be stimulating, revitalizing, and nourishing to the skin due to its iodine and sulfur amino acid content, which also provides its anti-inflammatory and disinfectant abilities. Kelps moisturizing properties are attributed to its ability to react with protein and form a protective gel on the skin's surface, reducing moisture loss due to evaporation. It has potential tissue renewal action and a positive effect on wrinkles. It protects sensitive skin against irritation and smooths and softens drier skin types.

Grapefruit Seed Extract - This seed extract is known for its antiseptic and antibacterial properties. It has naturally occurring Vitamin C and is an antioxidant.

Chloroxylenol - This ingredient is a safe, non-toxic, and non-irritating preservative. Preservatives are used to ensure that a product is kept from producing bacteria, discourage microorganisms from changing the composition of a product, and provide a good shelf life.
