

Jessner Solution

Sizes Available
4oz

Product Description:

An extremely effective and professionally-proven peel that — over a week's time— lifts superficial pigmentation, removes dead skin cells, dissolves clogged pores and helps reverse sun damage. The total regenerating effect delivers smooth, retextured skin not typically achievable with AHA or BHA fruit acid peels.

Skin Types & Conditions:

All non-sensitive skin types. Targeted for uneven texture, photo-damaged or hyperpigmented skin.

Benefits:

- Smooths lines and wrinkles
- Heals acne lesions and ingrown hairs (folliculitis)
- Reduces acne scarring
- Evens out pigment

Usage: This professional peel should be used only by a licensed skincare professional. Avoid contact with eyes. External Use Only. See warnings and instructions in Control Technical Manual before using this product. Always patch test client prior to first treatment.

Treatment Room: 7 Day Deep Skin Rejuvenation Treatment.

Featured Actives:

Salicylic Acid 14% - Helps dissolve the top layer of the stratum corneum very gently, dissolving the flaky dead cells that are often a side effect. This also allows the other active ingredients to penetrate and act more effectively below the surface of the skin. This ingredient is derived from the bark of sweet birch and the leaves of the wintergreen plant.

Lactic Acid 14% - An alpha hydroxy acid derived from sour milk, lactic acid has been used for centuries to relieve dry, aged skin. Lactic acid has better water intake than glycerin and studies report that lactic acid has an ability to increase the water-holding capacity of the corneum layer as well as improving the elasticity of the skin. Lactic acid is less irritating on sensitive or dry skin than some of the other AHA ingredients.

Resorcinol 14% - An antiseptic agent
