Ingredients

Steam Distilled Water, Sunflower Oil, Glyceryl Stearate, Cetearyl Glucoside, Grapeseed Oil, Almond Oil, Vegetable Glycerin, Xanthan Gum, Caprylic Acid, Glycine, Jojoba Oil, Cinnamon Oil, Lemon Oil, Juniper Oil, Grapefruit Oil, Tocopherol, Lecithin, Thyme

Almond Oil	An emollient with soothing properties.
Caprylic Acid	An oil liquid. Occurs naturally as a fatty acid in sweat, milk, and palm and coconut oil.
Cetearyl Glucoside	An emulsifier and surfactant.
Cinnamon Oil	Stimulates the skin. Has tonic and antiseptic properties. Also used as a fragrance.
Glyceryl Stearate	An emulsifier that assists in forming neutral, stable emulsions. It is also a solvent, humectant.
Glycine	An amino acid used as a texturizer.
Grapefruit Oil	Has antibacterial and anti-irritant properties.
Grapeseed Oil	Has moisturizing and nourishing properties due to its high linoleic acid content.
Jojoba Oil	A moisturizer and emollient. It reduces transepidermal water loss without completely blocking the transportation of water vapor and gases, providing the skin with suppleness and softness.
Juniper Oil	Has antiseptic, astringent, cleansing, and toning properties. Helpful in treating acne. Good for use on oily skin.
Lecithin	A natural emollient, emulsifier, and antioxidant. It is a hydrophilic ingredient that attracts water and acts as a moisturizer.
Lemon Oil	Considered to be a counterirritant, antiseptic, depurative, and lymphatic stimulant.
Steam Distilled Water	Water that has been processed water to eliminate minerals and impurities.

Sunflower Oil	Softens and smooths the skin. Contains a high amount of linoleic acid and other essential fatty acids. It also contains lecithin, carotenoids, and waxes.
Thyme	Has antiseptic properties. Helps increase circulation.
Tocopherol	Vitamin E - An important oil-soluble antioxidant and free-radical scavenger when applied topically. It is also has photoprotectant capabilities and helps protect the cellular membrane from free-radical damage. It also serves a preservative function due to its ability to protect against oxidation.
Vegetable Glycerin	A solvent, humectant, and emollient. It absorbs moisture from the air.
Xanthan Gum	Texturizer, carrier agent, gelling agent. Stabilizes and thickens formulations.

Usage Instructions

1. Deeply massage a small amount of Cellulite Activating Crème on cellulite areas spending about 5-7 minutes per treatment area.
2. Apply a mud, algae, or other wrap products over the treated area and tightly wrap client in plastic sheeting for 20-30 minutes.
