
Milk Collagen Mask

Description

This soothing collagen mask is blended with milk, vitamins A, C, and D, amino acid, and hyaluronic acid. It also contains citrus extract and kojic acid to reduce hyperpigmentation and restore the skin's natural moisture, tone, and balance. The result is vibrant, youthful looking skin.

Skin Type: All skin types, especially hyperpigmented and environmentally damaged.

Benefits:

- ❑ Reduces hyperpigmentation.
- ❑ Restores the skin's natural moisture, tone, and balance to produce vibrant, youthful looking skin

Ingredients

Purified Water, Soy Milk, Vitamins A, C, & D, Kojic Acid, Lemon Peel Extract, Marine Collagen (Seaweed Based), Hyaluronic Acid, Hydrogenated Lecithin, Bio-PGA, Allantoin, Jojoba Oil, Aloe Barbadensis Leaf Water, D-alpha tocopherol Acetate (Vitamin E).

| | |
|-----------------------------------|--|
| Allantoin | A botanical extract that is healing and soothing. An excellent anti-irritant (temporary) that helps heal damaged skin by stimulating new tissue growth. |
| Aloe Barbadensis Leaf Water | An emollient with hydrating, softening, healing, antimicrobial, and anti-inflammatory properties. |
| Bio-PGA | Has a moisturizing effect on the skin. |
| Hyaluronic Acid | A substance that occurs naturally in the dermis. It is a natural moisturizer with excellent water-binding capabilities. When applied to the skin, it forms a film similar to the way it holds water in the intracellular matrix. The ability to hold water provides smoothness, improving the skin's appearance. |
| Hydrogenated Lecithin | A natural emulsifying agent and one of the most important components of cells. Hydrogenated Lecithin (Lecithin with the addition of hydrogen) has all the good qualities of natural lecithin, yet its stability is greatly improved. Improves the homeostasis of the skin. |
| Jojoba (Simmondsia Chinensis) Oil | A moisturizer and emollient. It reduces transepidermal water loss without completely blocking the transportation of water vapor and gases, providing the skin with suppleness and softness. |
| Kojic Acid | A skin-lightening agent. Although it is not as effective as licorice extract, it inhibits tyrosinase. |

| | |
|--------------------|--|
| Lemon Peel Extract | Considered to be a counterirritant, antiseptic, depurative, and lymphatic stimulant. |
| Marine Collagen | Derived from the substance found on fish scales. Helps diminish the signs of aging and decrease the negative effects of toxins. |
| Purified Water | Water that is mechanically filtered or processed so that it is clean and free of any contaminants. |
| Soy Milk | Type of milk derived from the soybean plant. Moisturizer. Contains natural antioxidants and a significant amount of protein. |
| Vitamin A | Helps regulate keratin. Helps improve the skin's texture, firmness, and smoothness. Provides anti-aging benefits. |
| Vitamin C | A well known antioxidant that is popular in anti-aging products. Its synergistic effect with vitamin E is excellent. As vitamin E reacts with a free radical, it is damaged. Vitamin C repairs the free-radical damage in vitamin E allowing it to continue scavenging free radicals. |
| Vitamin D | Regulates keratinization, helping to improve skin feel and firmness with repeated use. It is absorbed through the skin's outer layers and is an important factor in epidermal cell turnover. It is usually found in combination with Vitamin A. Together the two help epithelial growth and promotes good skin pigmentation. |
| Vitamin E | An important oil-soluble antioxidant and free-radical scavenger when applied topically. It is also has photoprotectant capabilities and helps protect the cellular membrane from free-radical damage. It also serves a preservative function due to its ability to protect against oxidation. |

Usage Instructions

1. Unfold the mask and apply on a thoroughly cleansed face.
2. Leave the mask in place for 15 to 20 minutes.
3. Remove mask and finish with a toner and moisturizer appropriate for your client's skin type.
