

## **Sugar, Organic**

---

A medium-coarse exfoliating agent great for all over body scrubs. Exfoliating the body with harsh exfoliants can strip the skin of essential nutrients. Sugar will not only remove unwanted cellular debris, leaving your skin looking and feeling healthier, but it also nourishes and softens instantly.

### **Benefits**

- ❑ Gently exfoliates without harsh abrasives.
- ❑ Sugar-based formula is cleaner and easier to use – doesn't separate like salt scrubs.
- ❑ Sugar is a natural exfoliator.
- ❑ Non-irritating, non-drying.

### **Usage**

- ❑ Use with carrier oil only for exfoliating.
- ❑ Mix with a butter base and apply to client before they enter a hydrotherapy tub or soaking tub.
- ❑ Mixing ratio is 1-2 tablespoons of sugar to 1 tablespoon of carrier
