## Pure Collagen Eye Pads

### Description

These Collagen Eye Pads provide an intensive spa treatment to fight against fine lines and hydrate the skin. They are made of a native collagen fiber network and a monomer soluble collagen. The mask is based on the original structure of collagen in the skin, and has an extremely high water absorbing capacity similar to the skin's connective tissue. Eyes will appear more hydrated and a fine lines will be smoothed out. Completely free of preservatives and perfumes.

**Skin Type:** Dehydrated/aging skin.

### Benefits:

- Provides intense hydration and fights against fine lines.

### Ingredients

Collagen, Hydrogenated Polyisobutane, PPG-15 Stearyl Ether, PEG-40 Sorbitan Peroleate.

Collagen	Great hydration potential. Can bind and retain many times its weight in water.
Hydrogenated Polyisobutane	A synthetic oil that is used as a mineral oil substitute. It is an emollient and moisturizer, and prevents water loss.
PEG-40 Sorbitan Peroleate	An emulsifying and wetting agent. Not safe for use on injured or damaged skin.
PPG-15 Stearyl Ether	An emollient and skin conditioning agent.

### Usage Instructions

1. Thoroughly cleanse the skin.
2. Moisten the under eye area with water using a cotton ball or swab.
3. Place the Eye Pad directly under the eye and use the cotton- swab to moisten until saturated. (Steam may be used instead of cotton swab.)
4. For best results, let the collagen penetrate for no less than 15-20 minutes.
5. Remove eye pads and blot area with tissue paper.
6. Apply a protective cream.
