

Callus Eliminator®

FOR PROFESSIONAL USE ONLY

1. After soaking, liberally spread Callus Eliminator over callus.

Note: Wear gloves or rinse fingers well after applying.

2. Allow the product to penetrate 3 – 5 minutes depending on callus buildup. Then use a file or buffer to gently remove callus.
3. Wash thoroughly with water after use.

Cautions:

- ◆ Always wash off Callus Eliminator within 7 minutes of application.
- ◆ Avoid contact with skin other than callused areas.
- ◆ Do not apply to broken skin.
- ◆ If irritation develops, wash off immediately.
- ◆ **Avoid contact with eyes.** If product gets into the eyes, flush thoroughly with water for 15 minutes.
- ◆ If irritation persists, contact a physician immediately
- ◆ Keep away from children.

4 fl. oz/120 ml net weight
