

Citrus II Germicidal Cleaner

Usage:

- ❑ This product is designed specifically as a general non-acid cleaner and disinfectant for use in homes, hospitals, nursing homes, schools, hotels, and restaurants. It is also authorized by the USDA for use in federally inspected meat and poultry processing plants.
- ❑ It is formulated to disinfect hard, non-porous, inanimate, environmental surfaces such as walls, sink tops, tables, chairs, telephones, glazed ceramic tile in bathrooms, shower stalls, and bathtubs. It may be used in the kitchen on counters, sinks, appliances, and stovetops. Do not use on eating utensils, plates, or glasses.
- ❑ In addition, this product deodorizes those areas that are generally hard to keep fresh smelling, such as garbage storage areas, empty garage bins and cans, basements, restrooms, and other areas that are prone to odors caused by microorganisms.
- ❑ Remove filth or heavy soil prior to application of the product. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow product to penetrate and remain wet for 10 minutes. No scrubbing is necessary. Wipe off with a clean cloth, mop, or sponge. The product will not leave grit or soap scum.
- ❑ This product is fungicidal against the pathogenic fungi such as Athletes Foot when used as directed on hard surfaces found in bathrooms, shower stalls, locker rooms, or other clean, non-porous hard surfaces commonly contacted by bare feet.
- ❑ This product exhibits disinfectant efficacy against Mycobacterium tuberculosis (BCG) in 10 minutes at 20 degrees Centigrade (68 degrees Fahrenheit) when used as directed on previously cleaned hard non-porous, inanimate surfaces.
- ❑ When used as directed, this product exhibits effective disinfectant activity against the organism Staphylococcus aureus, Salmonella choleraesuis, Pseudomonas aeruginosa, as well as Escherichia coli O157 and H7. It also meets the requirements for hospital use.
- ❑ When used on environmental, inanimate, non-porous surfaces, this product exhibits effective virucidal activity against HIV (associated with AIDS), and Canine Parvovirus.

Precautions:

- ❑ For external use only.
- ❑ Keep out of reach of children.
