## Citrus II Germicidal Deodorizing Wipes

Citrus II Germicidal Deodorizing Wipes effectively kill 99.9% of bacteria. These wipes have a fresh citrus scent, and they clean and deodorize in one easy step. EPA registered.

Use this product to clean and disinfect non-porous personally protective safety equipment, protective goggles, spectacles, and face shields. Rinse all equipment that comes in prolonged contact with skin before reuse with clean warm water (about 120° F) and allow to dry.

### Benefits

- ◆ Fresh citrus scent
- ◆ Cleans and deodorizes in one easy step
- ◆ Kills 99.9% of bacteria
- ◆ Convenient and effective multi-purpose cleaner
- ◆ Antibacterial formula cleans and disinfects
- ◆ Virucidal/tuberculocidal/bactericidal

### Active Ingredients

Alkyl dimethyl benzyl ammonium chlorides (0.105%), Alkyl dimethyl ethylbenzyl ammonium chlorides (0.105%).

### Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

**Cleaning:** Use to completely remove surface of all gross debris from surfaces to be treated.

**Disinfecting:** To disinfect hard, non-porous surfaces, thoroughly wet the surface to be treated. Treated surface must remain visibly wet for disinfection.

- ◆ To disinfect against *Escherichia coli* (E. coli), *Escherichia coli* (0157:H7), *Pseudomonas aeruginosa*, *Salmonella choleraesulis* and Vancomycin Resistant *Enterococcus* (VRE), allow the treated surface to remain wet for 10 minutes.
  - ◆ To disinfect against *Staphylococcus aureus* and Methicillin Resistant *Staphylococcus aureus* (MRSA), allow the treated surface to remain wet for 10 minutes.
  - ◆ To disinfect against Vancomycin intermediate Resistant *Staphylococcus aureus* (VISA), allow the treated surface to remain wet for 10 minutes.
-

A potable water rinse is required for surfaces in direct contact with food.

**For plastic and painted surfaces, spot test on an inconspicuous area before use.**

For heavily soiled surfaces, clean before following disinfecting instructions.

**Virucidal Activity:** This product is an effective virucide on hard, non-porous surfaces against:

- ◆ Human Immunodeficiency Virus Type 1 (HIV-1) when the treated surface is allowed to remain wet for 2 minutes.
- ◆ Norovirus (Norwalk Virus) and Feline Calicivirus when the treated surface is allowed to remain wet for 10 minutes.

Use additional wipes if needed to assure that the treated surface remains continuously wet for the prescribed time.

**Kills HIV-1 on Pre-Cleaned Environmental Surfaces/Objects Previously Soiled With Blood/Body Fluids** in health care settings (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling inanimate surfaces/objects likely to be soiled with blood or bodily fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS.

**Special Instructions for Cleaning and Decontamination against HIV-1 on Personal Protection:** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye coverings.

**Cleaning Procedures:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. Citrus II Germicidal Deodorizing Wipes can be used for this purpose.

**Contact Time:** Thoroughly wet surface with a new Citrus II Germicidal Deodorizing Wipe. Allow surface to air dry. Although efficacy at a 2 minute contact time has been shown to be adequate against HIV-1, use the contact time for the disinfection of other organisms based on these directions.

**Disposal of Infectious Materials:** Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

Not for personal cleansing. This is **NOT** a baby wipe! Do not flush in toilet!

To Open Package: Flip open dispensing cap and remove lid by pulling upward. Thread center wipe corner through slits in lid center. **DO NOT PUSH FINGER THROUGH OPENING.** Replace lid. Dispense wipes by pulling out at an angle. Snap flip lid down when finished to retain moisture. Dispose of used wipes in trash. Do not flush.

---

**Precautionary Statements**

- ◆ Keep out of reach of children.
- ◆ Hazardous to humans and domestic animals.

**Caution:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**First Aid**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**If In Eyes:** Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens if present after the first 5 minutes, and then continue rinsing. Call a poison control center or doctor for treatment advice.

**Storage and Disposal**

Do not contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Store in an area inaccessible to children.

**Container Disposal:** Do not reuse empty container. Rinse thoroughly before discarding in trash.
