
Gehwol® Med Protective Nail and Skin Oil

Helps protect against fungal infections enabling the nails and skin to regain their elasticity and beauty. It contains high-quality substances such as wheat germ oil, and panthenol and bisabolene for nail and skin care. Clotrimazole helps prevent fungal infections. Fragile, brittle nails regain their elasticity and beauty providing a natural silky shine to the nails. Dermatologically tested.

Benefits

- ◆ Helps protect from fungal attacks.
- ◆ Leaves the nails and skin elastic and beautiful.
