

SluffWIPES Pro Pre-Tan Prep Wipes

what it is:

Same great SluffWIPES - only bigger! SluffWIPES Pro wipes are in a large "Professional Size" - each wipe is 8.5" X 14".

SluffWIPES Pro is a wall mounted, refillable, center-pull dispensing unit that offers Spas and Salons an alternative to messy, granular, oily scrubs when clients need fast, effective spa exfoliation with easier clean up..

what the product does:

SluffWIPES Pro dispensers are your quick, hygienic, and professional way to cleanse, balance and sluff away dead skin cells on all clients! The Professional Wall Mounted Dispensing Systems distributes extra large SluffWIPE towelettes that can be used in almost all Salon & Spa services for greater ease, convenience and treatment enhancement.

how the product works:

SluffWIPES gently loosen and dissolve dead skin cells, residues and film on the skin by using special sluffing fibers combined with natural fruit extracts. Gently wiping the skin with both sides of a SluffWIPE reveals a smooth, clean, and even surface that is perfectly primed for tanning.

Baby wipes and personal cleansing wipes typically contain oils, alcohols or moisturizers that leave behind residues on the skin that can streak or dilute your tanning results. SluffWIPES are free of these residues, and were designed specifically as the perfect sunless tanning prep.

key ingredients:

99.9% natural formula, free of alcohol and oils:

- Allantoin - Healing, soothing anti-irritant on skin
- Lactic Acid - Derived from milk
- Sugar Cane Extract - Mildly exfoliates
- Citric Acid - Vitamin C
- Malic Acid - Derived from apples

NOTE: This Product is Alcohol Free.

how to use:

Use 1-2 SluffWIPES Pros immediately prior to any sunless tan treatment.

Use the **WHITE** smooth side gently over the entire body to cleanse, pH balance and rinse the skin with a 99.9% natural formula.

Use the **BLUE** textured side to gently exfoliate dead skin cells, rough spots, and bendable areas.

Perfect right before any professional sunless service.

See "Recipes for Sunless Success" for more usage information.

Enhances the results of:

- Self-Tanning Lotions (including Moroccan Mineral Dark Self Tanning Lotion)
- Spray Booth Tans
- Airbrush Tans
- UV Tans

how to demo:

First, take a client's hand, and using the **WHITE** side of a SluffWipe, moisten the top of the client's hand. Then, use the **BLUE** dermally-abrasive side to whisk away dead skin, dirt, and residue. Allow a few seconds to dry, then marvel at the perfectly prepared palette for sunless or UV tanning!

Easy & Convenient Exfoliation without Water

SluffWIPES

Health & Beauty Uses...

SluffWIPES Sunless Uses

- ▶ **AVOID STAINING!** SluffWIPES easily wipe away DHA from palms of hands, nails, cuticles and bottoms of feet to avoid discoloration after sunless tanning.
- ▶ SluffWIPES are ideal for “detailing” tricky areas after spray tanning like elbows, wrists, ankles, and toes.
- ▶ Will not streak or dilute tanning sunless tanning results like baby wipes.
- ▶ Freshly cleansed and exfoliated skin typically develops darker sunless color that lasts longer.
- ▶ Exfoliating prior to sunless tanning can help prevent poor fading of a sunless tan.
- ▶ 99.99% Natural Formula is free of alcohols and solvents that can irritate skin.
- ▶ Fresh clean scent helps reduce DHA development odor.
- ▶ Perfect for walk-ins and unprepared clients who need fast cleansing and exfoliation.
- ▶ Canisters are great for mobile tanners and home use with your favorite self-tanning lotion – no granular mess.
- ▶ Improves and enhances all sunless & UV tanning sessions.

Uses in Salons & Spas

- ▶ Sunless Tanning Services (airbrush, booth spray, and Bronzing Treatments)
 - ▶ Before & After UV Tanning
 - ▶ Revive Manicures
 - ▶ Revive Pedicures
 - ▶ Pre Massage
 - ▶ Post massage
 - ▶ Pre/Post Waxing
 - ▶ Pre/Post Body wraps
 - ▶ Chest/Back Facials
 - ▶ Post Salt Glows
 - ▶ Pre/Post Hydrotherapy Baths
 - ▶ Pre/Post Mud Wraps
- ▶ Easily control level of exfoliating action by the amount of pressure you apply while wiping your skin. Use gentle pressure for sensitive skin or press a little firmer for rough, dry skin.
- ▶ SluffWIPES offers Spas and Salons an alternative to messy, granular, oily scrubs when they need fast, effective spa exfoliation with easier clean up.
- ▶ SluffWIPES Pro dispensers & Canister are your quick, hygienic, and professional way to cleanse, balance, and sluff away dead skin cells on all clients!

Why not offer your clients perks when tanning at your salon? SluffWIPES will help clients achieve the best results possible when tanning in your salon!

SluffWIPES at Home

- ▶ Use a new wipe each time you shower as a hygienic alternative to bacteria laden exfoliating sponges.
- ▶ Freshen up in a flash before applying sunless products at home.
- ▶ Great for use after working out & exercising.
- ▶ Leave a SluffWIPES canister in the refrigerator on hot summer days for a refreshing, cool down treat for the skin.
- ▶ Use the Blue Side of a SluffWIPE to gently sluff bikini areas to prevent ingrown hairs.
- ▶ Need a quick mini-manicure & pedicure at home? Use SluffWIPES to exfoliate, recondition, and smooth out unsightly dry patches on feet and hands in seconds.
- ▶ Great for smoothing out dry, mature skin that is rarely exfoliated and visibly flaky.
- ▶ Ideal for sloughing off dead, dry skin on heels, elbows, and knees to renew skin's appearance quickly.
