

## Eyebright Eye Makeup Remover and Treatment Oil™

1 oz. cobalt blue glass apothecary bottle

**INSPIRATION:**

Three treatments in one: Non-chemical eye make up remover, line smoothing, anti-inflammatory application to soften fine lines and wrinkles and a relaxing compress to sooth eyestrain. The herb Eyebright is known in herbalism to relieve eyestrain and redness due to fatigue from over-use, environmental irritants or allergies. As the nerves in the eyes are relaxed and strengthened, there is less strain, therefore less squinting and less rubbing. By combining Eyebright with the soothing properties of Chamomile in simple Sweet Almond Oil, one is applying an ancient remedy to an age-old complaint and removing eye makeup to boot! No missed opportunity here.

**INGREDIENTS:** eyebright extract, sweet almond oil, orange wax, vitamin e, grapeseed oil and chamomile essential oil

Eyebright Extract	Known in herbalism for relieving eyestrain, puffiness, and redness due to fatigue, environmental irritants, allergies, or over-use. As the nerves in the eyes are relaxed and strengthened, there is less strain and less tendency to squint or rub the eyes, both of which contribute to fine lines and inflammation.
Sweet Almond Oil	A light, odorless, high-grade fruit kernel oil - wonderfully nourishing to the skin.
Orange Wax	Orange wax is the semi-solid wax taken from orange rinds. The wax sourced by Farmaesthetics is derived without solvent extractions or chemical reactions, making it an all-natural ingredient. Orange wax as found in orange peels protects the fruit against the environment, allowing it to breath, while maintaining its essential water balance. When applied to the skin, it works in much the same way, making it a wonderfully emollient, gently protective ingredient, perfect for use around tender eye tissue.
Vitamin E	Used to stabilize all of Farmaesthetics natural non-aqueous formulations. Benefits in restoring skin’s elasticity. Assists in healing scars and preventing stretch marks in skin that is being stretched from pregnancy or weight gain.
Grapeseed Oil	Known as a natural antioxidant – helps benefit tender tissue around the eyes.
Chamomile Essential Oil	Farmaesthetics uses oils derived from German Chamomile. This is a soothing, calming herb with anti-inflammatory properties. High in azulene, it is known to be an anti-allergenic agent and is therefore excellent for reducing puffiness around delicate eye tissue.

**APPLICATIONS AND BENEFITS:**

- **A Non-Chemical Eye Makeup Remover** – Doesn't contain the harsh, synthetic, chemical solvents that are in most makeup removers and that dry and irritate, delicate eye tissue.
- **Tender Treatment Oil for delicate skin** - Made with nature's most settling calming emollient: Chamomile is a soothing, powerful anti-inflammatory agent.
- **Herbal Whole Eye Treatment** – Helps relax the ocular nerve. Our eyes are faced with stress and strain everyday, especially in our environmentally challenged world with computer driven business and communication, fluorescent lighting, poor indoor and outdoor air quality, air pollution from cleaning products, carpets, and chemically treated foods. Our eyes are exhausted by day's end and our eyesight is diminished with the continued strain of focusing and refocusing under often times poorly lit screens and work spaces. Grapeseed Oil stabilizes the preparation, but also yields an anti-bacterial action to the preparation.

**IN OUR PROFESSIONAL TREATMENTS:**

- **All Facials**
  - **All Massage Treatments**
  - **All Solar Salt Bath Soaks**
  - **Eyebright Heated Eye Treatment Pads.** Place warm Eyebright Treatment Oil on cotton pad and place over eye area and rest. This allows for thorough, deep absorption of the herbal constituents. If the eye area is dry, flaky, red and irritated from allergies or skin related disorders, this heated eye treatment pad will activate the beneficial emollients to the tissues.
