

### ~Remedy Oil Cabinet~

These highly specialized, non-aromatic herbalists' formulations are prepared by hand with organically grown herbs. Unlike typical massage, bath, and beauty oils made with herbal extracts or aromatic essential oils, Farmaesthetics' Remedy Oils are infused with real herbs. The herbs we choose undergo a traditional infusion process, allowing time to garner the healing properties inherent in each. The benefits of each, which are unique and profound,

are described below:

**Hyssop Remedy Oil:** 1 oz. (*Ingredients: sweet almond oil, whole dried hyssop\**, vitamin E) Known for its powerful anti-viral properties and revered as the herb to ward off viruses that can affect the voice, hyssop is a favorite herbal remedy for public speakers, politicians, teachers, singers, actors, or anyone trained to use their voice to instruct or perform. Apply to neck and throat area when throat is sore or experiencing vocal exertion.

**Arnica Remedy Oil:** 1 oz. (*Ingredients: soy oil, dried arnica flowers\**, vitamin E) Highly regarded in herbalism for its ability to diminish bruising and swelling in tissue. Arnica's complex chemistry works to affect the blood vessels, rapidly reducing any inflammation associated with injured tissue. A capful used in external massage or in a warm bath soak is a simple, effective way to introduce Arnica into the system, while at the same time conditioning the skin and improving circulation. Dermatologists are now recognizing the many benefits of Arnica for patients following laser or plastic surgery.

**Calendula Remedy Oil:** 1 oz. (*Ingredients: sweet almond oil, dried calendula flowers\**, vitamin E) Calendula, nature's most powerful skin-mending herb, promotes fast-healing in all external skin conditions. A preventative when used before exposure to elements, it is also an effective reparative once skin is over-exposed. Use on the face as a complexion oil for dry or mature skin, or to hasten the healing process of wounds, scars, or burns, including those produced by laser or cosmetic surgery.

**Nettle Remedy Oil:** 1 oz. (*Ingredients: sweet almond oil, dried nettle leaf\**, vitamin E) Effective massage oil in cases of childhood eczema and cradle cap. Excellent treatment oil for dry flaky scalps, in adults. Nettle has been known and used for centuries in head and scalp massage to help stimulate new hair growth on men and women experiencing thinning hair &/or balding.

**Lemon Balm Remedy Oil:** 1 oz. (*Ingredients: sweet almond oil, dried nettle leaf\**, vitamin E) Lemon Balm is in the mint family and known to help cool, restore, and uplift a depleted system that comes when one is over-extended, anxious or unable to sleep, due to prolonged periods of mental or emotional "selflessness". A powerful remedy to use when mothering a newborn, dealing with a stressful emotional situation, or taking care of the sick or elderly.

*(Indicates certified organic ingredient\*)*

*Farmaesthetic products are 100% natural, dermatological tested, non-irritating, and hypo-allergenic*
