

INSPIRATION:

This highly specialized, non-aromatic herbalist formulation is prepared by hand with organically grown herbs. Unlike typical massage and bath oils made with herbal extracts or aromatic essential oils, Farmaesthetics’ Remedy Oils are infused with whole organic herbs. The herbs we choose undergo a traditional infusion process, allowing time to garner the healing properties

inherent in each. The result is significant when used in hot bath soaks and external massage and absorbed through the skin.

Calendula

Made from nature’s most powerful skin-mending flower, this heady resinous herb as used in Farmaesthetics Calendula Remedy Oil, promotes fast healing in all external skin conditions. A preventative when used before exposure to elements, it is also an effective reparative once skin is over-exposed. Use on the face as a complexion oil for dry or mature skin. Use to hasten the healing process of wounds, scars or burns, including those produced by laser or cosmetic surgery.

INGREDIENTS: sweet almond oil, organically grown calendula*, and vitamin e (*certified organic ingredient**)

| | |
|------------------|--|
| Sweet Almond Oil | A light, odorless, high-grade fruit kernel oil - wonderfully nourishing to the skin. |
| Calendula | A heady, resinous flower from the marigold family. Calendula one of the most powerful of all the skin-repairing herbs or flowers. It is used to promote fast healing of wounds, scars or burns, including those produced by laser surgery. Farmaesthetics uses Calendula oil as a base for most of its skin oils, creams, salves, and lotions. Farmaesthetics finds this bright golden flower to be nature’s number one herb for restoring and restructuring damaged skin. Farmaesthetics’ Calendula Remedy Oil is used in dermatologist’s offices to treat dry mature or troubled skin on the face as well as the hands and body. Farmaesthetics has clients that use it expressly to treat the ravages of eczema, psoriasis, and other conditions traditionally treated internally and externally with prescription drugs...none with the effect and outcome of Calendula. |
| Vitamin E | Used to stabilize all of Farmaesthetics natural non-aqueous formulations. Benefits in restoring skin’s elasticity. Assists in healing scars and preventing stretch marks in skin that is being stretched from pregnancy or weight gain. |
