

## Sweet Soy, Calendula, and Orange Oil

To mend the skin, minimize scarring and overall to console and warm the complexion, restoring a healthy glow.

4 oz. frosted glass bottle

It is widely accepted that adding soy to your diet can help prevent osteoporosis and even protect against cancer. But now soy is being recognized for its ability to even skin tone when applied externally ... and some say soy can even correct pigmentation in the skin brought about by hormonal changes. The moisturizing properties are undeniable, making it a key ingredient in anti-aging and anti wrinkle skincare products. Farmaesthetics uses Soy in its Sweet Soy Oils for its ability to make skin supple, smooth, and its healthy best at all ages and stages of life.

**INGREDIENTS:** sweet soy oil\*, orange essential oil\* calendula\* and natural vitamin E (certified organic ingredient\*)

Sweet Soy Oil	One of the high-grade, cosmetic grade carrier oils. Especially chosen for its softening, uncomplicated chemistry ... light enough for massage, yet safe for those with nut allergies. Very emollient and soothing to the skin.
Vitamin E	Used to stabilize all of Farmaesthetics natural non-aqueous formulations. Benefits in restoring skin's elasticity. Assists in healing scars and preventing stretch marks in skin that is being stretched from pregnancy or weight gain.
Calendula	A heady, resinous flower from the marigold family. Calendula one of the most powerful of all the skin-repairing herbs or flowers. It is used to promote fast healing of wounds, scars or burns, including those produced by laser surgery. Farmaesthetics uses Calendula oil as a base for most of its skin oils, creams, salves, and lotions. Farmaesthetics finds this bright golden flower to be nature's number one herb for restoring and restructuring damaged skin. Farmaesthetics' Calendula Remedy Oil is used in dermatologist's offices to treat dry mature or troubled skin on the face as well as the hands and body. Farmaesthetics has clients that use it expressly to treat the ravages of eczema, psoriasis, and other conditions traditionally treated internally and externally with prescription drugs...none with the effect and outcome of Calendula.
Orange Essential Oil	Since the 17 <sup>th</sup> century, orange oil has been used to assist the digestive system, settling the belly. Supporting the body's detoxification system is orange oil's medicinal strength, but its characteristically warm, round scent has for centuries imparted a subtle jollity to the spirits.

**APPLICATIONS and BENEFITS:**

- Clean, simple herbal treatment oil for moisturizing and conditioning the complexion of the face and body.
- Gorgeously emollient when used in the bath or applied after shower as body oil.
- Safe and relaxing to use on elderly, pregnant or post-par tem women, as it is totally free of synthetics, making it safe for use on all age groups and conditions, even those with nut allergies.
- Great for use in massage, having lots of “slip” for easy application.
- Best applied on damp, warm skin.
- Soy has the added benefits of phytoestrogens, said to have balancing effects on irregular hormonal activities.
- Gentle enough to use on the face, especially when harsh weather conditions have dried or irritated the complexion.

**AS USED IN PROFESSIONAL TREATMENTS:**

- Used as massage oil for face or body.
  - Used in all Farmaesthetics Cornmeal Scrub treatments.
-
