

### Revitalizing Massage Oil

This mid-weight, smooth massage oil was the first lubricant developed by BIOTONE, and remains an all-purpose favorite after 15 years. A secret blend of cold-pressed nut oils (Sweet Almond, Hawaiian Kukui and Coconut) combine for superior texture and even penetration and help facilitate the versatile consistency and even penetration that's kept Revitalizing Massage Oil a staple for beginning and advanced massage therapists. It's an especially good lubricant for male clients since it facilitates smoother glide over lots of hair.

FEATURES	BENEFITS
Versatile, mid-weight oil	Provides lasting glide and even penetration. Mid-weight weight and texture suitable for a wide range of massage techniques. Does not leave skin greasy.
Contains Almond Oil	Softens and smoothes the skin. Mid weight texture and easy absorption. A stable oil that will not go rancid quickly.
Contains Kukui Oil	Excellent skin absorption and skin penetration due to its high content of natural linoleic acids. Protects delicate skin tissue from drying out. Good for use with essential oils and aromatherapy applications.
Contains Olive Oil	Very emollient, penetrating and lubricating to the skin
Contains Pecan Oil	Softening and smoothing to skin. Even weight and absorption that is non-greasy. High anti-oxidant value
Contains Vitamin E	A natural moisture binder that helps skin to breath and function normally. Has natural anti-oxidant properties to preserve product freshness and has skin healing properties.
Water dispersible	Minimizes staining of linens, reducing laundry costs
Unscented	Use as is or add essential oils to create aromatherapy blends.
Oils are cold-pressed extracted.	Helps maintain the natural vitamin and mineral content to maximize skin benefits.

#### Selling Tips:

- mid-weight smooth massage oil was the first lubricant developed by BIOTONE and remains an all-purpose favorite.
- Especially good lubricant for male clients as it facilitates smoother glide over dense hair
- Paraben Free
