

Usage Instructions

Product Name

Flowery® Callus Liquidator

Ingredients

Water, Potassium Hydroxide, Propylene Glycol, Acrylates/C10-30 Alkyl Acrylate, Crosspolymer, Chelating Agent.

Procedure

Soak feet in warm water for 5-6 minutes before applying Callus Liquidator. Wear gloves or rinse fingers after applying. Apply generously and evenly to callused skin only. Allow gel to set and penetrate 3-5 minutes, depending on callus buildup. Use a file or buffer to gently remove callused skin. Wash thoroughly with water after use. For excess callus buildup, the process may be repeated.
