

## Firming Tri-Peptide Serum

# Firming Tri-Peptide Serum

Sizes Available  
1oz

### Product Description:

Peptides are highly absorbable proteins that help stimulate the skin to produce collagen. This powerhouse serum features three peptides that combine to minimize the look of fine lines and wrinkles while maximizing youthful skin smoothness and elasticity.

### Skin Conditions:

For all skin types needing surface plumping and visible wrinkle relief.

### Benefits:

- Firms, tones, smoothes - gently
- Strengthens the skin
- Super hydrating, wrinkles less apparent

**Usage:** After cleansing, apply a small amount to entire face and neck areas. Allow serum to dry before moisturizer and/or sunscreen is applied. Ideally used twice daily.

**Treatment Room:** Clinical A + Peel, Lighten Up, Tighten Up Facial, Dermal Flash Treatment, Hydrating Cream Peel Facial, Eye Lift, Eye Firm Treatment.

### Featured Actives:

**Palmitoyl Tripeptide-3:** Improves micro circulation, increasing the oxygen supply to tissues, strengthens and protects the integrity of elastin and collagen in the skin by inhibiting elastase and collagenase activity. Its benefits include reduction of puffiness and dark circles around the eyes and a softening of fine lines and wrinkles.

**Hexapeptide-11:** It is well documented that extracts from yeast fermentation have demonstrated wound healing properties, increased cellular oxygen consumption, improve collagen synthesis, and increase blood vessel development. Considered the “firming” peptide, Hexapeptide-11: has been shown to “upregulate” the genes responsible for collagen and elastin production. This peptide is thought to play a role in improving skin elasticity, skin lipid integrity and development.

**Palmitoyl Pentapeptide-4:** Also known as Matrixyl, it has been proven to stimulate the development of new collagen, fibronectin, elastin and GAGs in the dermal layer of the skin. It creates a healing response in the skin. It is a combination of five amino acid peptides in one chain.

## Firming Tri-Peptide Serum

**Hydrolyzed Collagen** - Beneficial for its ability to water-bind and retain moisture in the corneum layer. It creates a film that keeps the water “locked in” and reduces dehydration. A humectant and an anti-irritant, this very stable protein is known to be non-allergic to all skin types.

**Hydrolyzed Elastin** - A hydrolysate of natural elastin, it works synergistically with hydrolyzed collagen and has been documented to prevent and counteract premature loss of elasticity to restore a young and smooth appearance to the skin.

**Lentinula Edodes (Shitake Mushroom Extract)** - A skin strengthener obtained from plants, this ingredient is beneficial for firming the skin, increasing the elasticity and tone of mature skin. Rich in oligosaccharides and uronic acids from Shitake, this active ingredient enables the skin to combat the degradation of collagen and elastin fibers.

**Lentinula Edodes (Shitake Mushroom Extract)** - A skin strengthener obtained from plants, this ingredient is beneficial for firming the skin, increasing the elasticity and tone of mature skin. Rich in oligosaccharides and uronic acids from Shitake, this active ingredient enables the skin to combat the degradation of collagen and elastin fibers.

**Panax Ginseng Root Extract** - This herbal root has many therapeutic benefits. It has been used for centuries to treat boils, sores, swelling and bruising. It is helpful in diminishing wrinkles and reduces the symptoms of dry skin conditions. Medicinal properties are suggested to help improve skin rejuvenation, oxygenation and stimulation. The roots' active component called “ginsenosides” is said to be responsible for revitalizing the epidermal cells.
