

Ceramide Daily Cream

Sizes Available
2.5oz, 6oz

Product Description:

Strengthening the lipid barrier helps maintain the skin's optimum water content. With appropriate moisture, skin looks, feels and functions the way younger skin does. Ceramide Daily Cream also contains vitamins E and A to help fight off aging free radical damage.

Skin Conditions:

For normal to dry skin.

Benefits:

- Help reduce moisture loss to dehydrated and dry skin
- Absorbs easily and feels silky and gentle when applied
- Unlike oils alone, Ceramide 3, builds up over continued use to create "humid skin" helping reduce skin sensitivity and dryness
- Calms and soothes the skin

Usage: Apply as often as desired when the skin needs balance and moisturizing.

Treatment Room: C New Brightness Facial, Lactic Action Peel

Featured Actives:

Ceramide 3 - (Derived from Millet) - Approximately 40% - 50% of the skin's stratum corneum is made up of ceramides. Ceramides are lipids that are composed of sphingosine and fatty acids, both of which the skin needs to function correctly and hold onto water. The use of exfolators such as AHA's, photo damage and harsh cleansers, the ceramide content in the skin can be compromised. Unlike oils and humectants, Ceramide 3, builds up over continued use to create "humid skin" helping reduce skin sensitivity and dryness.

Vitamin E (Tocopherol) - An antioxidant found in essential oils and vegetable oils. Also known as tocopherol, this wonderful vitamin, when applied topically, is well absorbed through the skin. It is attributed to reducing skin pigmentation, decreasing functioning of the sebaceous glands, increasing water retention in the skin, and serving as a super antioxidant and free radical scavenger. It is also helpful as an UV protectant.

Vitamin A (Retinyl Palmitate) - This essential vitamin for the skin favors tissue growth, helping improve the skin smoothness, firmness and texture. Applied topically, Vitamin A helps prevent scaling and dryness. Once Vitamin A esters enter the skin, they convert to retinoic acid and provide rejuvenation benefits as well as help the skin fight off infection. An excellent aid to healing damaged skin tissue.

Ceramide Daily Cream

Ceramide Daily Cream

Aloe Vera - Known for its anti-inflammatory and antibiotic properties. Aloe Vera is made up of the most precious substances of our skin – enzymes, vitamins, proteins, and minerals that support all skin functions and activate the skin's self-healing power. Aloe Vera helps maintain the skin's moisture balance and stimulates blood circulation. It has been used to calm and soothe burns and irritations. It is also moisturizing.

Glycerin - Helps the skin retain moisture.

Safflower Oil - This botanical seed extract is known to be hydrating and is excellent carrier oil. Safflower oil is non-comedogenic.
