Usage: Apply to the face with wet fingertips or to pre-moistened skin and massage.

Treatment Room: Hydrating Cream Peel Facial, Lactic Action Peel, C New Brightness Facial, Revitalizing Cream Peel, Botanical Soothing Facial, Lighten Up, Tighten Up Facial.

Featured Actives:

Soy Oil - Has a high content of phosphatides (e.g. lecithin), and vitamins (A, E, and K). It stimulates the synthesis of collagen, elastin, and glycoproteins.

Vitamin E (Tocopherol) - Vitamin E is an antioxidant found in essential oils and vegetable oils. Also known as tocopherol, this wonderful vitamin, when applied topically, is well absorbed through the skin. It is attributed to reducing skin pigmentation, decreasing functioning of the sebaceous glands, increasing water retention in the skin, and serving as a super antioxidant and free radical scavenger. It is also helpful as an UV protectant. There is also evidence that Vitamin E is effective in preventing irritation due to sun exposure, and is protective against epidermal cell damage caused by inflammation. Vitamin E counteracts decreased function of the sebaceous glands.

Wheat Germ Oil - Known to be antioxidant and serves as a free radical scavenger.

Hydra Calm Massage Oil

Citric Acid - This antioxidant ingredient plays an important role in lightening discoloration and has an astringent quality, beneficial to all skin types. Also known as Vitamin C, it is considered the most important water-soluble antioxidant as it acts as a collagen biosynthesis regulator.

Urea - Known for its antiseptic, anti-inflammatory properties as well as its ability to regulate the hydrolipid mantle. It helps increase the absorption of other active ingredients and relieves itching as well as dissolves follicular debris in the corneum layer.
