## Peppermint Pedicure Foot Crème

### Description

An exclusive blend of the most healing and stimulating ingredients along with the antiseptic powers of organic essential oils will moisturize and reduce foot odors.

**Skin Type:** All skin types.

### Benefits:

- Stimulates tired feet.
- Moisturizes the feet.
- Reduces foot odors.

### Ingredients

Steam Distilled Water, Herbal Infusion Of Organic Herbs: Sage, Peppermint, Lavender, Passion Flower, Sunflower Oil, 100% Vegetable Glyceryl Stearate, 100% Vegetable Glycerine, 100% Vegetable Cetearyl Glucoside, Peppermint Oil, Xanthan Gum, Caprylic Acid, Glycine, Grapeseed Oil, Almond Oil, Tea Tree Oil, Jojoba Oil, Tocopherol (Natural Vitamin E)

Almond Oil	An emollient with soothing properties.
Caprylic Acid	An oil liquid. Occurs naturally as a fatty acid in sweat, milk, and palm and coconut oil.
Glycine	An amino acid used as a texturizer.
Grapeseed Oil	Has moisturizing and nourishing properties due to its high linoleic acid content.
Jojoba Oil	A moisturizer and emollient. It reduces transepidermal water loss without completely blocking the transportation of water vapor and gases, providing the skin with suppleness and softness.
Lavender Herb	Soothing, sedating.
Passion Flower Herb	Sedative, antispasmodic, tranquilizing.
Peppermint Herb	Carminative, antiseptic. Increases circulation.
Peppermint Oil	Has refreshing, cooling, bactericidal, and anti-irritant properties. Also used as a fragrance.
Sage Herb	Possesses softening, invigorating, and healing properties.
Steam Distilled Water	Water that has been processed to eliminate minerals and impurities.
Sunflower Oil	Softens and smoothes the skin. Contains a high amount of linoleic acid and other essential fatty acids. It also contains lecithin, carotenoids, and waxes.
Tea Tree Oil	A natural preservative with antiseptic, antimicrobial, germicidal, and expectorant properties. Helps control foot odor.

---

Vegetable Cetearyl Glucoside	An emulsifier and surfactant.
Vegetable Glycerine	A solvent, humectant, and emollient. It absorbs moisture from the air.
Vegetable Glyceryl Stearate	An emulsifier that assists in forming neutral, stable emulsions. It is also a solvent, humectant.
Vitamin E	An important oil-soluble antioxidant and free-radical scavenger when applied topically. It is also has photoprotectant capabilities and helps protect the cellular membrane from free-radical damage. It also serves a preservative function due to its ability to protect against oxidation.
Xanthan Gum	Texturizer, carrier agent, gelling agent. Stabilizes and thickens formulations.

**Usage Instructions**

- ❑ Use as a massage crème or a final step in a pedicure.
- ❑ Use during a facial for hands and feet under paraffin for an invigorating treatment add-on.
