

## **Dead Sea Mud Products**

---

With its dramatic desert setting 400 meters below sea level, the lowest point on Earth, the Dead Sea is among the world's most exotic and exhilarating natural spas. The water has a high concentration of salts and minerals in a unique composition that is particularly rich in such chloride salts as magnesium, sodium, calcium, potassium, bromine, and others. The Sea features many thermo-mineral springs running under it and along its shores, supplying it with the numerous curative minerals, as well as creating its mineral-rich black mud. With over 60% mineral content, the Dead Sea's black mud has calming, analgesic, and anti-inflammatory properties. As a beauty treatment, the salts and mud deep cleanse the skin, helping to minimize the appearance of wrinkles and revitalize the complexion. These features together offer an exclusive and unsurpassed health and beauty spa experience unlike any other in the world.

The Dead Sea is a legendary, mystical place. Since biblical times its mineral-rich waters have been celebrated for their cleansing, healing, and rejuvenating properties. Legendary beauties Cleopatra and the Queen of Sheba are reputed to have favored the natural spa of the Dead Sea. The Dead Sea salts and muds can be used as both a cosmetic and a therapeutic treatment for a wide range of skin conditions.
