
Eucalyptus and Collagen Mask

Description

The anti-bacterial Eucalyptus and Collagen Mask helps prevent acne and blackhead formation. In addition to being super hydrating, it helps soothe inflammation, heal recovering scar tissue, and balance oil production.

Skin Type: Oily and acne prone skin/irritated skin

Benefits:

- Helps:
 - Prevent acne and blackhead formation.
 - Hydrate the skin
 - Soothe inflammation, heal recovering scar tissue, and balance oil production.

Ingredients

Aqua, Butylene Glycol, Aloe Barbadensis Extract, Betaine, Eucalyptus Globulus Extract, Hydrolyzed Collagen, Hydrolyzed Milk Protein, Ascorbic Acid, Panthenol, Hyaluronic Acid, Tocopheryl Acetate, Phenoxyethanol, Retinyl Palmitate, Bisabolol, PEG-40 Hydrogenated Castor Oil, Allantoin, Menthol.

Allantoin	A botanical extract that is healing and soothing. An excellent anti-irritant (temporary) that helps heal damaged skin by stimulating new tissue growth.
Aloe Barbadensis Extract	An emollient with hydrating, softening, healing, antimicrobial, and anti-inflammatory properties.
Aqua	Water
Ascorbic Acid	Vitamin C - A well known antioxidant that is popular in anti-aging products. Its synergistic effect with vitamin E is excellent. As vitamin E reacts with a free radical, it is damaged. Vitamin C repairs the free-radical damage in vitamin E allowing it to continue scavenging free radicals.
Betaine	A surfactant and excellent conditioner, viscosity builder, and foam booster.
Bisabolol	A botanical that has anti-inflammatory and soothing properties.
Butylene Glycol	A solvent with good antimicrobial properties. It enhances the preservation activity of parabens.
Eucalyptus Globulus Extract	Eucalyptus has antiseptic and expectorant properties. As a detoxifying herb, its most important characteristic is that it stimulates local blood flow.

Hyaluronic Acid	A substance that occurs naturally in the dermis. It is a natural moisturizer with excellent water-binding capabilities. When applied to the skin, it forms a film similar to the way it holds water in the intracellular matrix. The ability to hold water provides smoothness, improving the skin's appearance.
Hydrolyzed Collagen	Modified collagen. Has the ability to bind and retain many times its weight in water.
Hydrolyzed Milk Protein	Forms a film on the skin's surface which allows the skin to retain moisture.
Menthol	Has antiseptic, cooling, and refreshing properties. Also stimulates circulation of blood.
Panthenol	Vitamin B ₅ - A penetrating moisturizer. Helps stimulate the production of cells and aids skin repair.
PEG-40 Hydrogenated Castor Oil	Fragrance ingredient, surfactant, and cleansing agent. Its primary function is as a cleansing agent.
Phenoxyethanol	Broad range preservative with fungicidal, bactericidal, insecticidal, and germicidal properties.
Retinyl Palmitate	Skin conditioner. Considered a milder version of retinoic acid. Converts to retinol on the skin. Helps increase epidermal thickness, stimulate epidermal protein, and increase skin elasticity.
Tocopheryl Acetate	Vitamin E - An important oil-soluble antioxidant and free-radical scavenger when applied topically. It is also has photoprotectant capabilities and helps protect the cellular membrane from free-radical damage. It also serves a preservative function due to its ability to protect against oxidation.

Usage Instructions

1. Unfold the Eucalyptus and Collagen Mask and apply it to your client's thoroughly cleansed face.
2. Leave on the face for 15 to 20 minutes.
3. Remove the mask and finish with a toner and moisturizer appropriate for the client's skin type.
