
Gommage Peel

Description

This Gommage Peel is a non-abrasive peeling cream that contains natural enzymes. It gently sloughs off the impurities and dead surface skin cells, leaving the skin with a healthy glow and smooth refined texture.

Skin Type: All skin types except very mature or fragile skin.

Benefits:

- ❑ Deep cleansing of all skin surfaces.
- ❑ Prevents the formation of clogged pores and blackheads.
- ❑ Leaves the skin soft and glowing.
- ❑ Prepares the skin for better product penetration.

Ingredients

Purified Water, Aloe Vera Gel, Paraffin, Natural Beeswax, Stearic Acid, Papaya Extract, Methylparaben, Pineapple Extract, T.E.A., Propylparaben, Imidazolidinyl Urea, Lavender Extract, Beet Extract

Aloe Vera Gel	An emollient with hydrating, softening, healing, antimicrobial, and anti-inflammatory properties.
Beet Extract	Used as a colorant.
Imidazolidinyl Urea	A commonly used antibacterial preservative. Has a low sensitizing potential.
Lavender Extract	Fragrance ingredient. Helps tone the skin and prevent skin dryness.
Methylparaben	Preservative used to combat bacteria and molds.
Natural Beeswax	An emulsifier. Helps regulate a formula's consistency. Has anti-inflammatory, antiallergic, antioxidant, antibacterial, germicidal, skin-softening, and elasticity-enhancing properties. An antioxidant, it also has some free-radical scavenging properties.
Papaya Extract	Used as a gentle exfoliant. Helps soften the skin and smooth the appearance of fine lines and wrinkles.
Paraffin	Used in cosmetic products as a beeswax substitute.
Pineapple Extract	A gentle exfoliant that removes dead skin cells. Its activity is based on bromelain, an enzyme that dissolves keratin.
Propylparaben	Frequently used preservative against bacteria and mold.
Purified Water	Water that is mechanically filtered or processed so that it is clean and free of any contaminants.
Stearic Acid	An emulsifier and thickening agent found in many vegetable fats.
T.E.A.	An emulsifier and pH adjuster.

Usage Instructions

1. After cleansing the skin, apply a think layer of the Gommage Peel to the face and neck. Allow to dry slightly.
2. Support skin, and proceed to do gommage (light feathery movements of the fingers, sloughing off the product and dead skin) to the face and neck.
3. If product gets too dry, moisten fingertips and proceed with exfoliation.
4. When finished, apply the appropriate toner to mesh or cotton pads and remove any remaining residue.
5. Proceed with standard facial.
