
Papaya Modeling Mask

Description

This exfoliating mask rejuvenates and regenerates the skin. Made with papain, a fruit enzyme that helps eliminate dead skin cells.

Skin Type: All skin types.

Benefits:

- ❑ Rejuvenates and regenerates the skin.
- ❑ Helps eliminate dead skin cells.
- ❑ Prepares skin for better penetration of serums and other actives.

Ingredients

Alginate, Dried Extract of Papaya, Renewing Cell Factor, Propylene Glycol

Alginate	A thickener that is obtained from marine extracts.
Dried Extract of Papaya	Used as a gentle exfoliant. Helps soften the skin and smooth the appearance of fine lines and wrinkles.
Propylene Glycol	Moisture carrying vehicle used in cosmetic formulations.
Renewing Cell Factor	Aids in cell renewal.

Usage Instructions

1. Mix powder packet with 90 ml (3 oz.) of water. (*Important - Make sure the water is 68° F*)
2. Stir quickly and vigorously for 1 minute to get a creamy, smooth paste.
3. Apply the paste to the face immediately. The mask sets up in 5 minutes following its application.
4. Allow the mask to perform its function for at least 15 minutes.
5. Remove by peeling it off in one piece.
