

TWEEZERMAN Professional

MASTER TECH

Master Tech Ingrown Toenail File and Cleaner

ITEM CODE: 5215-P

Description

Features an ingrown toenail file to help relieve the pressure of ingrown nails and a thin, curved end to clean under and around the nail. Stainless Steel with soft Master Tech grips for optimum control.

Feature	Benefit
Double sided tool	Relieves pressure of ingrown nails and cleans under nails
Stainless steel	Durable, easy to clean and sanitize. Autoclave-friendly.
Soft silicone grips	Comfort, non-slip grip

Product Usage

File top of nails with a regular nail file to reduce thickness. After soaking nails and while nails are soft, gently slide file under ingrown to lift nail. To file away ingrowns, slide file side under lifted area and slowly pull file out to thin the under-surface of the nail and relieve pressure. Repeat until nail is back to a normal.

Caution: Do not use on those with diabetes or circulatory problems.

Tips & Tricks

Only Tweezerman Master Tech tools have soft built-in grips for control and comfort.

All Master Tech tools can be sterilized using any state required sanitizing process, including autoclave.

Works Great With

Deluxe Toenail Clipper
Power Shaver with Rasp
