

C7101T Clean & Easy Wax Heater

The Clean & Easy Wax Heating Unit is now sold separately. Accommodates (3) leg, (1) body, and (2) face applicators. The compartment at the back of the unit allows two extra applicators to heat up to 110 degrees, allowing a quicker heat up time when placed into the heating unit. The five-sided heater plates allow even heating. The innovative roller heads face the heater plate and contain a metal core which maintains the heat. Ergonomically designed to take up very little space. Allow 30 minutes warm up time, do not leave on overnight. There is a standby setting for in between uses.
