Innovative Thinking - Premium Design - Exclusive Functions

For centuries, the famous exclamation of the Roman Emperor Nero, "**Sanitas Per Aqua**" (SPA), meaning "**Health Through Cold Water**", has symbolized people's instinctual belief and practice in water's curative and transforming powers and **CryoFuzion therapy**, also known as hot and cold therapy, is a treatment method that involves alternating between hot and cold temperatures to promote healing. It is commonly used in sports medicine, physical therapy, and recovery routines.

Innovative thinking, premium design and exclusive functions are the driving forces behind the **Cryofuzion Recovery POD™** family of multi-sensory spa systems. They represent a holistic system of balance and restoration creating a revolutionary improvement for spa and skin care sessions. **Cryofuzion Recovery POD™** capsule allows you to offer clients truly chilling spa solutions to modern concerns.

360° Vichy 20 Shower Jets "The Scottish Shower"

The Vichy Shower is integrated into the capsule has 20 jet spray nozzles that surround the body above and below for a 360° hot water, and Cold Water a thermoregulatory system. The 20 shower jets can be used for thalassotherapy services (in thalassotherapy or sea therapy seawater is used as a form of therapy). With the adjustable programs of the 360° VICHY 20 shower jets, it is possible to perform contrast hydrofusion sessions (i.e., Scottish shower) in which hot and cold jets of water alternate and create an invigorating result. The integrated **360° VICHY** shower jets can be used as part of a Fitness, Wellness, or SPA service or as single sessions.

Translucent Exterior Shell constantly changes its look as it reflects and glows from the ambient surrounding ambient light or its own Colorbath™ Chromolights system.

Stereo Ready for the ultimate relaxation experience, 150 W waterproof speaker which can be easily connected to any audio source.

Deluxe Color LCD Display operated via a touch button control panel, the sleek multi-language display offers 10 pre-set programs & 1 custom program.

FIVE CONTRAST PROGRAMS FOR CRYOFUZION RECOVERY POD

Contrast therapy, also known as hot and cold therapy, is a method that involves alternating between hot and cold temperatures to promote Rejuve, Recharge, and Recovery.

It is commonly used in sports medicine, physical therapy, and recovery routines to address muscle soreness, inflammation, and recovery.

Cryofuzion Recovery POD™ is stunning in design and provide the perfect spa environment that is easy to use. The powerful synergy and variety of their functions will enable your spa/clinic to offer each individual care adapted to their needs, lifestyle and desires.

Cryofuzion Recovery POD™ is a state-of-the-art multi-sensory system for body sessions and hydrotherapy services. **Cryofuzion Recovery POD™** combines Hydrofuzion™, infrared heat and steam, with a Vichy shower system inside a powerful air-jet massage hydrotherapy bath. **Cryofuzion Recovery POD™** calls upon the natural healing powers of water, steam, heat and massage for unlimited restorative, customized spa services.

Cryofuzion Recovery POD™ sessions offer an overwhelming relaxing sensory experience and feeling of total well-being by incorporating muds, seaweeds, gels, wraps, masks, sprays, salt-glow and extracts from natural sources in a high-tech environment capsule. Vitamins and Minerals can be added to the hydromist system so nutrients are transdermally introduced into any spa session.

Cryofuzion Recovery POD™ future-forward services create a significant advantage and point of difference for your business and clients in a continuously growing and competitive market as well as a reward for your consumers' loyalty with its sensational body services.

At the forefront and in line with market trends, **Cryofuzion Recovery POD™** is the perfect addition to *Destination Spas, Amenity Spas (Hotels, Golf Country Clubs, Tennis Resorts), Club/Fitness Spas, Day Spas, Wellness Centers and other beauty* related facilities looking to offer sensational spa services.

Become one with water

CRYOFUZION RECOVERY POD™ service provides a combination of **Cold & Hot** infrared heat that conditions the body. Add hydro-massage therapy via the 360° Vichy shower 20 jets (i.e., 10 shower sprays above the body and 10 lower-body shower sprays) and 2-foot massager jets.

"**Become one with water**" is the culmination of Wellness — It is clear that the **Cryofuzion Recovery POD™** epitomizes the concept of Healing with water; aiming to restore total body wellness through a myriad of hot and cold water application services tried and tested over the ages.

Cryofuzion Recovery POD™ combines the breakthrough concept of **Hydrofusion™**, the blending of 2-heat technologies - steam and far infrared heat with true hydro-massage therapy, via Vichy shower and underbody hot and cold water jet massage, creating an unparalleled spa experience in a personal hydro-therapy shower jets. With the enrapturing sensation of the advanced ColorBath™ ChromoLight system, mixing mood with aromatherapy and sound, **Cryofuzion Recovery POD™** allows you to offer an invigorating and blissful collection of body care sessions while enhancing the best traditional fitness, recovery and wellness services.

Cryofuzion

Cryofuzion Recovery POD™ is an extraordinary engineering breakthrough creating a single blended energy force through the harmonization of far infrared heat and steam, cold water showers that allows you to use both of these natural energies individually or simultaneously. Increased body temperatures cause the skin to perspire to keep the core temperature stable, cleansing and hydrating. It also promotes a healthy weight and encourages healthy nutrition and hydration. Together, these elements join forces to optimize body cleansing, moisturization, and can improve physical fitness. Plus improve relaxation, sleep management, including managing stress and these are just a few powerful healing benefits.

Cryofuzion Therapy “Contrast Shower” is a type of hydrotherapy that involves alternating between hot and cold water during a shower. The practice is similar to contrast therapy, with the key difference being that it is performed as part of a regular shower rather than as a separate service.

■ **Infrared:** The infrared emitters are engineered to produce comfortable heat within the far infrared category.

■ **Steam:** Moist heat is gentler on the body than the dry heat of a sauna because it softens the skin as it opens pores and stimulates perspiration. Herbs or essential oils infused into steam will enhance the results. **Cryofuzion Recovery POD™** features adjustable temperature steam for body and skin therapy (up to 48°C/118°F).

■ **Micro Mist Chiller:** A light micro mist is instantly dispersed over the body via the touch of a button; if desired, you can add minerals and vitamins to the mist creating an added treatment and nutrient similar to all natural hot springs therapies services.

■ **Vitamin/Mineral System:** Dispenses nutrients such as vitamins and minerals into the mist stream allowing skin to transdermally drink up the nourishment of vitamins and minerals. The mist system can have the same benefits as a mineral springs bath.

■ **Aromatherapy:** Two unique aroma reservoirs that vaporize essential oils and herbal extracts to awaken olfactory senses and to enhance results and enjoyment. Pure essential oils and herbal essences stimulate the body through the sense of smell. Aromatherapy essential oils and herbal extracts may be combined to achieve customized results.

■ **Chromolights:** State-of-the-art digital red lighting technology eight (8) chromolights light stations to generate a variety of rich and atmospheric colored lights. Emanating from the translucent pebble-grain shell, the mood enhancing chromotherapy glow will put your client in a total state of harmony and balance. By combining color services with other spa services, their effects are dramatic. Each one of the **Cryofuzion Recovery POD™** preset programs features a different Colorbath™ with random color changes and multicolor cross fades made up of all the colors of the spectrum, from soothing and relaxing, to balancing and energizing.

■ **360° Vichy Shower Jets 20:** State-of-the-art dual 360° Vichy shower body spray system features 10 above the body showers 10 under body shower jets with adjustable spray direction for a relaxing total-body massage. **7 pre-set Vichy shower programs are available with Scottish Shower mode, alternating hot and cold jets.**

■ **Vibratory Massage Bed:** Engage all of the body's systems to work in unison toward the goal of systemic harmony. Cradling the body, the ergonomically-designed support bed features a patented massage vibration system featuring continuous and pulsating vibration to stimulate the body.

■ **Hand Shower:** An indispensable feature to rinse products from your client's body wrap experience and for cleaning the interior of the unit after each session.

■ **Foot Spray:** two shower jets for Soothe, revive and refresh aching feet with two foot massager jets that spray water gently over the feet for a special spa experience.

Water is the Driving Force of all Nature.

— Leonardo da Vinci

How CryoFuzion Works:

CryoFuzion, also known as hot and cold therapy, is a treatment method that involves alternating between hot and cold temperatures to promote healing, reduce pain, and improve circulation. It is commonly used in sports medicine, physical therapy, and recovery routines to address muscle soreness, inflammation, and injuries.

■ **One: Heat Application (Vasodilation):** Heat is applied to the body or a specific area to increase blood flow, relax muscles, and reduce stiffness. This is known as vasodilation, where blood vessels widen, allowing more blood, oxygen, and nutrients to reach the affected area.

■ **Two: Cold Application (Vasoconstriction):** After heating, cold is applied to constrict the blood vessels (vasoconstriction), which reduces blood flow, inflammation, and numbs pain. This process helps in reducing swelling and easing pain.

■ **Three: Alternating Hot & Cold:** By alternating between heat and cold, contrast therapy stimulates circulation, helps remove waste products from the injured area, and promotes faster recovery by cycling through vasodilation and vasoconstriction.

Signature Vasodilation Programs

1. Recovery Wellness: 10 min
 2. Recovery Fitness: 7 min
 3. Recharge: 12 min
 4. CryoFuzion: 7 min
 5. Rejuve: 10 min
 6. Cold Cleanse: 7min
-
7. Customize Program
 8. Tutorial Program
 9. Automatic Self Cleaning

Benefits of Contrast Therapy:

Pain Relief: Reduces muscle soreness and joint pain.

Improved Circulation: Enhances blood flow, which can speed up healing.

Reduced Swelling: Helps to manage inflammation and swelling from injuries.

Muscle Recovery: Assists in the recovery process after intense physical activity.

Typical Applications:

Sports Injuries: Sprains, strains, and overuse injuries.

Chronic Pain Management: Conditions like arthritis or lower back pain.

Post-Workout Recovery: To alleviate muscle fatigue and soreness.

How It's Done:

In a Clinical Setting: Performed by physical therapists or sports medicine professionals using specialized equipment like hot and cold baths.

At Home: Can be done using hot packs, heating pads, warm showers, or baths, followed by cold packs, ice baths, or cold showers.
