# BRAND OVERVIEW

---

FOUNDED IN 1998 BY MICHAEL BERESFORD, MOOR SPA EMBODIES A VISIONARY APPROACH TO WELLNESS AND SKINCARE—ONE THAT BRIDGES CENTURIES-OLD NATURAL THERAPIES WITH CONTEMPORARY SCIENTIFIC INNOVATION.

Inspired by the profound healing benefits of Austrian Deep Moor, Beresford's mission was to create a comprehensive line of professional spa products that are safe, effective, and 100% naturally derived.

Today, Moor Spa is globally recognized for setting a new standard in clean beauty, offering results-driven products for spa professionals and wellness enthusiasts alike.

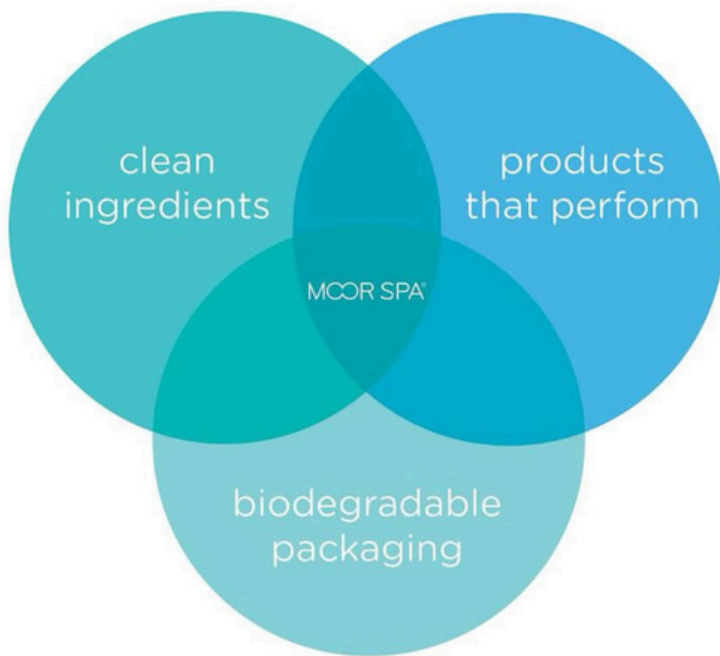

## [Heritage and the Power of Austrian Deep Moor](#)

At the heart of the brand lies Austrian Deep Moor, a nutrient-rich peat formed over thousands of years from the gradual decomposition of herbs, flowers, and grasses in oxygen-deprived wetlands. This ancient substance, once used by Egyptians, Celts, and Romans, has been valued for its anti-inflammatory, detoxifying, and rejuvenating properties.

Modern scientific validation, particularly through the work of Dr. Walter Kosmath in the 20th century, has cemented Moor's therapeutic relevance.

Supported by over 60 years of clinical research, Austrian Deep Moor is now a cornerstone of spa therapy in Europe and beyond, recognized for its ability to enhance skin health, relieve inflammation, and support hormonal and circulatory balance.

MOOR SPA®
