

Section 1: Product and Company Identification	
Product Name:	AMBER ROSE LUKEWARM WAX
Product Description:	Cosmetic - Depilatory lukewarm (liquid) wax
Product Use:	Hair removal wax used for removal of body hair.
Manufacturer:	Amber Products 549 Route 30 Imperial, PA 15126
Prepared by:	Technical Department
Date Prepared:	January 12th, 2010
Telephone Number:	1-800-821-9188
Chemical Name:	Mixture
Chemical Formula:	Not available
Chemical Family:	Not available
In Case of Emergency:	1-800-821-9188

Section 2: Composition and Information on Ingredients			
Name	CAS#	% by Weight	Toxicological Data
No hazardous ingredients			

Section 3: Hazards Identification	
Emergency Overview:	Not dangerous in normal conditions. Before waxing, test on a small region of skin to find comfortable temperature.
Potential Health Effects, Signs and Symptoms of Exposure:	
1) Solid product:	Acute and chronic effects are not expected. Safety precautions and proper hygiene measures must be followed accordingly.
2) Very hot or molten product:	
Eye:	Contact with very hot product will burn the eyes.
Skin:	Not dangerous in normal conditions. Contact with very hot product can cause serious burns.
Ingestion:	Ingestion of large quantities can result in gastrointestinal disturbances.
Inhalation:	Vapors may cause slight respiratory irritation.

Section 4: First Aid Measures	
Eye Contact:	Immediately wash eyes for 15 minutes with a directed stream of low pressure lukewarm water. Remove contact lenses from eyes. Seek medical attention.

Skin:	If in contact with hot molten product, cool skin with water or cold packs for 15 minutes. Do not place ice directly on skin. Seek medical attention.
Ingestion:	Rinse mouth with water. Do not induce vomiting unless directed by medical personnel. Loosen tight clothing (collar, tie, belt). Seek medical attention.
Inhalation:	Move person to fresh air. If person is not breathing, give artificial respiration. Seek medical attention.

Section 5: Fire Fighting Measures

Flashpoint (°C/°F):	Not applicable
Flammable Limit (vol %):	Not applicable
Auto-ignition Temperature:	None established
Extinguishing Media:	Carbon dioxide, dry foam or powder. If only water is available, use in the form of fog.
Fire Fighting Instructions:	Wear protective clothing to prevent skin and eye contact. Do not send runoff to sewers or waterways.
Fire Fighting Equipment:	Use a self-contained breathing apparatus and protective clothing because toxic thermal decomposition of products can occur.

Section 6: Accidental Release Measures

Spill or Release Procedures:	If molten, contain and absorb with sand or earth. Transfer to a suitable container for disposal. Do not let enter sewage system. Sweep up to avoid slippery conditions. If molten, let it cool down and then scrape for removal.
Personal Protection:	Goggles, rubber / pvc and full protective clothing & equipment recommended.

Section 7: Handling and Storage

Handling:	Normal handling precautions applicable to industrial chemicals. Use proper washing of hands and face after handling, before eating, drinking or smoking. Keep product out of reach of children.
Storage:	Store in a cool, dry and ventilated place away from direct sunlight, heat, sparks, flames, combustibles and incompatible materials.

Section 8: Exposure Controls / Personal Protective Equipment

Respiratory Protection:	None required under normal conditions of use. Provide exhaust ventilation to keep airborne levels of mists/vapors below exposure limits recommended.
Skin Protection:	Under normal conditions of use, wear disposable nitrile or neoprene gloves.

Eye Protection:	None required under normal conditions of use.
Other Protection:	Avoid heating to very high temperatures sufficient to produce smoke or fumes.
Work/Hygienic Practices:	Wash well after handling and before eating, drinking or smoking.

Section 9: Physical and Chemical Properties

Appearance (100°C):	Opaque pink-red visquous liquid.
Odor:	Characteristic
pH:	Not available
Specific Gravity:	Not available
Boiling Point:	Not determined
Flashpoint:	More than 100°C (212°F).
Solubility:	Oil or hydrocarbons. Not soluble in water.
Vapor Pressure:	Not applicable
Evaporation Rate:	Not applicable

Section 10: Stability and Reactivity

Stability:	Stable under normal conditions.
Dangerous Reactions:	None known.
Incompatibility (Materials to Avoid):	Contact with strong oxidizing agents.
Hazardous Polymerization:	None known.
Conditions to Avoid:	Sources of ignition, open flames, sparks, high temperatures.
Hazardous Decomposition:	Not known.

Section 11: Toxicological Information

Eye Contact:	Product may cause slight but transient eye irritation.
Inhalation Toxicity:	Acute inhalation studies with rats submitted to decomposition fumes: No deaths occurred after a six hour exposure period. Repeated or prolonged inhalation of product fumes can cause asthma allergic response in susceptible individuals.

Carcinogenicity:	Not classified as carcinogenic by IARC, OSHA, or NTP.
Teratogenicity:	Not available
Mutagenicity:	Not available
Reproductive Toxicity:	Not available

Section 12: Ecological Information

Biodegradability:	Product not readily biodegradable. Special care must be taken to avoid product residues to enter water basins, rivers, lakes or water supplies.
Ecotoxicity:	Data not available. May be harmful to aquatif life.

Section 13: Disposal Considerations

Waste Disposal:	Dispose of in accordance with local, provincial (state) and federal regulations. Most likely to be in a controlled incineration.
------------------------	--

Section 14: Transportation Information

This product is not classified as dangerous in the meaning of transport regulations.

Section 15: Regulatory Information

WHIMS/OSHA CLASSIFICATION:

WHIMS (Canada):	Not WHMIS regulated.
OSHA HCS (29CFR 1910.1200):	Not regulated.

Section 16: Other Information

No additional information available.

The information contained in this MSDS is accurate to the best of our knowledge, using the latest information available to Parfumerie Reynard Ltd. Parfumerie Reynard Ltd does not assume any liability for the accuracy or completeness of the information contained in this MSDS. It is the sole responsibility of the user to determine suitability of product use and to assume liability of any loss, damage or injuries that may occur out of improper product use. Although some hazards regarding materials are mentioned in this MSDS, we cannot guarantee that these are the only ones as some remain unknown. This material safety data sheet is valid for three years.
