**Section 5: Fire Fighting Measures**

Extinguishing Media: Carbon dioxide, powder or water.  
 Fire Fighting Instructions: Avoid extinguishing methods that generate dust clouds. Water streams can disperse dust into air. Fire-fighters should wear self-contained breathing apparatus.  
 Unusual Hazards: None known

**Section 6: Accidental Release Measures**

Spill or Release Procedures: Sweep up to avoid slipping hazard. Keep airborne particulates at a minimum when cleaning up spills..

**Section 7: Handling and Storage**

Handling: Observe precautions found on the label. Wash face and hands thoroughly with soap and water after handling and before eating, drinking or smoking. Avoid prolonged or repeated contact with skin. Avoid contamination.  
 Storage: Store in cool, dry place away from heat, sparks, flame and direct sunlight. Close container after each use. Ground all metal containers when transferring. Use explosion-proof equipment. Store away from combustibles and incompatible materials.

**Section 8: Exposure Controls/Personal Protective Equipment**

Engineering Controls: Use good local exhaust at processing equipment, including buffers, sanders, grinders and polishers. High temperature processing equipment should be well ventilated. USE explosion proof equipment. Provide ventilation if necessary to control exposure levels below airborne exposure limits. All equipment must be grounded.

**Personal Protective Equipment:**

General: Dust collectors are recommended for handling powder in bulk.  
 Eye/Face Protection: Use safety glasses and have eye flushing equipment immediately available..  
 Skin Protection: Minimize contamination by following good industrial practice. Wearing nitrile, neoprene, pvc, latex or other impermeable gloves is recommended.  
 Respiratory Protection: When in bulk: Avoid breathing dust and mist. Use dust mask.
