

# **SAFETY DATA SHEET**

## Section 1. Identification

GHS product identifier	: Gelish Blooming Gel
Other means of identification	: Not available.
Product code	: 1148012, 1244032
Product type	: Liquid.
Relevant identified uses o	f the substance or mixture and uses advised against
Not applicable.	
Supplier's details	: Nail Alliance - North America, Inc. 1545 Moonstone Brea,CA 92821

(714) 773-9758

Emergency telephone	: (800) 535-5053
number (with hours of	
operation)	

## Section 2. Hazards identification

OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
Classification of the substance or mixture	: SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 TOXIC TO REPRODUCTION (Fertility) - Category 2
	Percentage of the mixture consisting of ingredient(s) of unknown oral toxicity: 69.4% Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: 85.6% Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 85. 6%
GHS label elements	
Hazard pictograms	
Signal word	: Warning
Hazard statements	: Causes serious eye irritation. Causes skin irritation. May cause an allergic skin reaction.
Precautionary statements	
Prevention	: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves. Wear eye or face protection. Wear protective clothing. Avoid breathing vapor. Wash hands thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace.

## Section 2. Hazards identification

Response	: IF exposed or concerned: Get medical attention. IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
Storage	: Store locked up.
Disposal	<ul> <li>Dispose of contents and container in accordance with all local, regional, national and international regulations.</li> </ul>
Hazards not otherwise classified	: None known.

## Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Other means of identification	: Not available.

### **CAS number/other identifiers**

CAS number : Not a	pplicable.			
Ingredient name	CAS number	EC number	INCI Name	%
Polyurethane acrylate oligomer	Exempt	-	Di-HEMA trimethylhexyl dicarbamate*	≥50 - ≤75
2-phenoxyethyl methacrylate	10595-06-9	234-201-1	Phenoxyethyl Methacrylate	≥10 - ≤25
Triethylene glycol dimethacrylate esters	109-16-0	203-652-6	Triethylene Glycol Dimethacrylate	≥10 - ≤25
2-hydroxyethyl methacrylate	868-77-9	212-782-2	НЕМА	≤5
ТРО	75980-60-8	278-355-8	Trimethylbenzoyl diphenylphosphine oxide	≤3

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

Description of necessary f	irst aid measures
Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Date of issue/Date of revision	:09-20-2021 Date of previous issue : No previous validation Version :1 2/12

### Section 4. First aid measures

Ingestion	: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Most important symptoms/	effects, acute and delayed
Potential acute health effe	<u>cts</u>
Eye contact	: Causes serious eye irritation.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: Causes skin irritation. May cause an allergic skin reaction.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sym	<u>ptoms</u>
Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: Adverse symptoms may include the following: Suspected of damaging fertility.
Skin contact	: Adverse symptoms may include the following: Suspected of damaging fertility. redness irritation
Ingestion	: Adverse symptoms may include the following: Suspected of damaging fertility.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	<ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> </ul>
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.

Date of issue/Date of revision

### Section 5. Fire-fighting measures

Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide phosphorus oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods and materials for containment and cleaning up

Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

#### Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

## Section 7. Handling and storage

Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene
Conditions for safe storage, including any incompatibilities	<ul> <li>measures.</li> <li>Shield UV light sources. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.</li> </ul>

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

Ingredient name	Exposure limits	
Polyurethane acrylate oligomer	None.	
2-phenoxyethyl methacrylate	None.	
Triethylene glycol dimethacrylate esters	None.	
2-hydroxyethyl methacrylate	None.	
TPÓ	None.	

Appropriate engineering controls	local exhaust	ons generate dust, fumes, gas, vapor or mist, use process enclosures, ventilation or other engineering controls to keep worker exposure to aminants below any recommended or statutory limits.
Environmental exposure controls	they comply w cases, fume s	m ventilation or work process equipment should be checked to ensure with the requirements of environmental protection legislation. In some corubbers, filters or engineering modifications to the process equipment ary to reduce emissions to acceptable levels.
Individual protection meas	<u>s</u>	
Hygiene measures	eating, smoking Appropriate te Contaminated contaminated	forearms and face thoroughly after handling chemical products, before ng and using the lavatory and at the end of the working period. echniques should be used to remove potentially contaminated clothing. I work clothing should not be allowed out of the workplace. Wash clothing before reusing. Ensure that eyewash stations and safety close to the workstation location.
Eye/face protection	assessment in gases or dust	ar complying with an approved standard should be used when a risk ndicates this is necessary to avoid exposure to liquid splashes, mists, s. If contact is possible, the following protection should be worn, unless ant indicates a higher degree of protection: chemical splash goggles.
Skin protection		
Hand protection		stant, impervious gloves complying with an approved standard should be es when handling chemical products if a risk assessment indicates this is

worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

## Section 8. Exposure controls/personal protection

Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	<ul> <li>Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Respiratory protection	<ul> <li>Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.</li> </ul>

## **Section 9. Physical and chemical properties**

### **Appearance**

Physical state	: Liquid. [Gel]
Color	: Colorless to slight violet
Odor	: Characteristic. Acrylate odor
рН	: Not available.
Melting point	: Not available.
Boiling point	: Not available.
Flash point	: Closed cup: >93.3°C (>199.9°F)
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: 1.1
Solubility	: Not available.
Solubility in water	: Not available.
Partition coefficient: n- octanol/water	: Not available.
Auto-ignition temperature	: Not available.
Viscosity	: Not available.
Flow time (ISO 2431)	: Not available.

## Section 10. Stability and reactivity

Reactivity	No specific test data related to reactivity available for this product or its ingredients.				
Chemical stability	: The product is stable.				
Possibility of hazardous reactions	: Hazardous polymerization may occur under certain conditions of storage or use. These could cause the product to polymerize exothermically. Unintentional contact with them should be avoided.				
Conditions to avoid	: No specific data.				
Incompatible materials	: No specific data.				
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.				
Date of issue/Date of revision	: 09/20/2021 Date of previous issue : No previous validation Version : 1 6/12				

## Section 11. Toxicological information

### Information on toxicological effects. Based on existing data. No animal testing conducted on finished good.

Acute toxicity							
Product/ingredient name	Result		Species		Dose		Exposure
Triethylene glycol dimethacrylate esters	LD50 Oral		Rat		10837 mg/kg		-
2-hydroxyethyl methacrylate	LD50 Oral		Rat		5050 mg/kg		-
Irritation/Corrosion				T			
Product/ingredient name	Result	Spec	ies	Score		Exposure	Observation
Triethylene glycol dimethacrylate esters	Skin - Moderate irritant	Mous	e	-	336 hours 25 - Percent		5 -
Information on the likely routes of exposure	: Not available.						
Potential acute health effects	5						
Eye contact	: Causes serious eye irrita	tion.					
Inhalation	: No known significant effe		ritical haza	ards.			
Skin contact	: Causes skin irritation. Ma	ay cause	e an allerg	gic skin	reactio	on.	
Ingestion	: No known significant effe	ects or cr	ritical haza	ards.			
Symptoms related to the phy	vsical, chemical and toxicol	ogical c	haracter	<u>istics</u>			
Eye contact	: Adverse symptoms may						
	pain or irritation watering redness			5			
Inhalation	: Adverse symptoms may include the following: Suspected of damaging fertility.						
Skin contact	: Adverse symptoms may include the following: Suspected of damaging fertility. redness irritation						
Ingestion	: Adverse symptoms may include the following: Suspected of damaging fertility.						
Delayed and immediate effec	ts and also chronic effects	from sl	nort and	long te	rm exp	<u>oosure</u>	
Short term exposure							
Potential immediate effects	: Not available.						
Potential delayed effects	: Not available.						
Long term exposure							
Potential immediate effects	: Not available.	: Not available.					
Potential delayed effects	: Not available.						
Potential chronic health effe	<u>ects</u>						
Not available.							
General	: Once sensitized, a sever very low levels.	e allergi	c reaction	may oc	ccur wł	nen subseque	ently exposed to
	: No known significant effects or critical hazards.						
Carcinogenicity	: No known significant effe	ects or cr	ritical haza	ards.			

**Mutagenicity** 

**Teratogenicity** 

### Section 11. Toxicological information

- : No known significant effects or critical hazards.
  - : No known significant effects or critical hazards.
- Developmental effects Fertility effects
- : No known significant effects or critical hazards.
- : Suspected of damaging fertility.

### Numerical measures of toxicity

### Acute toxicity estimates

Not available.

### Section 12. Ecological information

### Toxicity - Based on existing data. No animal testing conducted on finished good.

Product/ingredient name	Result	Species	Exposure
2-hydroxyethyl methacrylate		Fish - Pimephales promelas - Juvenile (Fledgling, Hatchling, Weanling)	96 hours

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Product/ingredient name	LogPow	BCF	Potential
Triethylene glycol dimethacrylate esters	1.88	-	low
2-hydroxyethyl methacrylate TPO	0.42	- 53 to 72	low low

#### Mobility in soil

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

	DOT Classification	TDG Classification	Mexico Classification	ADR/RID	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-	-	-	-
Transport hazard class(es)	-	-	-	-	-	-
Packing group	-	-	-	-	-	-
Environmental hazards	No.	No.	No.	No.	No.	No.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to Annex II of MARPOL and the IBC Code

### Section 15. Regulatory information

U.S. Federal regulations	: TSCA 8(a) CDR Exempt/Partial exemption: Not determined
Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)	: Listed
Clean Air Act Section 602 Class I Substances	: Not listed
Clean Air Act Section 602 Class II Substances	: Not listed
DEA List I Chemicals (Precursor Chemicals)	: Not listed
DEA List II Chemicals (Essential Chemicals)	: Not listed

## Section 16. Other information

### Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

#### Notice to reader

\*Most Nail Alliance gels are composed of oligomers made primarily from urethane (meth)acrylates. Nail Alliance is using the designation di-HEMA trimethylhexyl dicarbamate, the official INCI name of urethane dimethacrylate, which is substantially the equivalent of polyurethane acrylate oligomer.

### Section 16. Other information

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

Information contained within this SDS is only to be distributed as required by law.
