Section 6: Accidental Release Measures

Spill or Release Producers: Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

For small spills (e.g., <1 gallon) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispolse of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clotthing and wash thoroughly before reuse.

For spills > 1 gallon, deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer product to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

Section 7: Handling and Storage

Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Do not store in damaged or unmarked containers or storage devices. Keep containers securely closed when not in use.

Spilled material may present a slipping hazard if left unattended. Clean all spills promptly.

Section 8: Exposure Controls / Personal Protection

Personal Protective Equipment

Engineering Controls:	General machanical (e.g., fans) or natural ventilation is sufficient when this product is un use.
Eye / Face Protection:	Avoid eye contact. None required under normal conditions of use.
Skin Protection:	Oil resistant if skin contact is anticipated
Hands/Feet:	None required under normal conditions of use.
Respiratory Protection:	None required if used in a well-ventilated area.
Other protective equipment:	None

The product ingredients are to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios.

Section 13: Disposal Considerations

For household settings: The following instructions are for consumer usage only. Do not discharge product into natural water without pre-treatment or adequate dilution For Non- household settings: product covered by this MSDS, in their original form, when disposed as waste, are considered non-hazardous waste according with Federal RCRA, regulations (40CFR 261). Disposal should be in accordance with federal, state and local requirements

Section 15: Regulatory Information

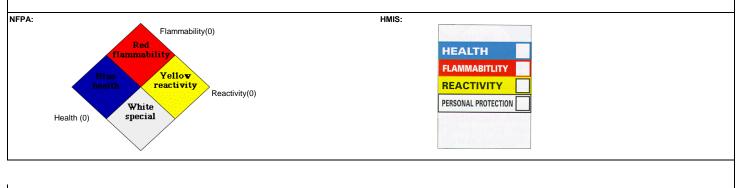

US Federal Regulations	
Clean Air Act: HAP/ODS	This product contains the following hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act. They are as follows:
	• NONE
	This product does not contain any Class1 or Class 2 ODS
Clean Water Act: Priority Pollutant	This product contains the following Hazardous substances as defined by the CWA
	• NONE
	This product does not contain may substances that are Priority Pollutant or Toxic Pollutant
FDA: Food Packaging Status	This product has not been cleared by the FDA for use in food packaging and /or other applications as an indirect food
