#### EMERGENCY OVERVIEW

- \* May cause allergic skin reaction.
- \* May cause eye irritation.
- \* Dust may cause irritation if the nose, throat, and lungs
- \* This product may contain particulate, not otherwise classified (Nuisance Dust)

#### Potential Health Effects, Signs & Symptoms of Exposure:

**Primary Route of Entry** Eyes or skin (No absorption); inhalation of dust.

**Eye** Higher concentration can irritate eyes. May cause eye irritation or damage.

**Skin** Repeated or prolonged exposure may cause allergy skin rashes.

**Ingestion** Higher concentration can irritate respiratory system.

**Inhalation** Possible temporary discomfort due to inhalation of dust concentration above the permissible exposure limits. Dust may cause irritation of the nose, throat, and lungs.

**Sub-Chronic Effects** For Polymer: OSHA classifies this material as Particulates, Not Otherwise Classified, Eyes, skin and Respiratory tract may be irritated by gross overexposure to Particulates, Not Otherwise Classified, no matter how they are generated. Avoid inhalation of dust. Keep dust out of eyes to prevent possible irritation.

For decomposition product: Methyl Methacrylate Monomer; liquid or high vapor concentration can irritate eyes, respiratory systems and cause skin rashes. Prolonged exposure can lead to headaches, nausea, staggering gait, confusion, drowsiness and unconsciousness.

Repeated and prolonged over exposure may cause permanent brain and nervous system, allergic skin rashes, eye corrosion and permanent injury, as well as changes in liver and kidney function or damage.

For Benzoyl Peroxide: repeated or prolonged contact may cause skin sensitization.

**Section 4: First Aid Measures**

First Aid for Eye	Flush with water for 15 minutes, including under eyelids. Get medical help if discomfort persists.
First Aid for Skin	Wash with soap and water. Get medical help if discomfort persists.
First Aid for Inhalation	Remove to fresh air. Get medical help if discomfort persists

580° F/304°C estimated	N/A	N/E
Extinguishing Media:	Water, carbon dioxide, dry chemical.	
Fire Fighting Instructions:	Avoid extinguishing methods that generate dust clouds. Water streams can disperse dust into air, producing a fire hazard and possible explosion hazard. Fire-fighters should wear self-contained breathing apparatus	
Unusual Hazards:	Polymer dust is combustible, explosive limits of the polymer particles suspended in air are approximately those of coal dust..	

**Section 6: Accidental Release Measures**

Spill or Release Procedures: Sweep up to avoid slipping hazard. Keep airborne particulates at a minimum when cleaning up spills..

**Section 7: Handling and Storage**

Handling	Observe precautions found on the label. Wash face and hands thoroughly with soap and water after handling and before eating, drinking or smoking. Avoid prolonged or repeated contact with skin. Avoid contamination. USE only with adequate ventilation..
Storage	Store in cool, dry place away from heat, sparks, flame and direct sunlight. Close container after each use. Ground all metal containers when transferring. Use explosion-proof equipment Store away from combustibles and incompatible materials.
Explosion Hazard	Polymer dust is combustible, explosive limits of the polymer particles suspended in air are approximately those of coal dust.

**Section 8: Exposure Controls/Personal Protective Equipment**

Engineering Controls Use good local exhaust at processing equipment, including buffers, sanders, grinders and polishers. High temperature processing equipment should be well ventilated. USE explosion proof equipment. Provide ventilation if necessary to control exposure levels below airborne exposure limits. All equipment must be grounded. Temperatures above 480 C must be avoided.

**Personal Protective Equipment:**

General	Dust collectors are recommended for handling powder in bulk.
Eye/Face Protection	Use safety glasses and have eye flushing equipment immediately available..
Skin Protection	Minimize contamination by following good industrial practice. Wearing nitrile, neoprene, pvc, latex or other impermeable gloves is recommended.
Respiratory Protection	Avoid breathing dust and mist. Use dust mask.
