Home: This is a personal care/ cosmetic product that is safe for consumers when used as intended.
Industrial: Use of standard personal protective equipment (PPE) is required when working in an industrial setting. Always follow safe work practices.

Section 9: Physical and Chemical Properties	
Appearance: Smooth Rounded Disk	Color: Purple-Blue
Odor: Characteristic Odor Threshold: Not Applicable	Boiling Point: Not Applicable
Melting Point: Not Applicable Initial Boiling Point and Boiling Range: Not Applicable	Viscosity @ 25°C: Not Applicable Partition Coefficient: Not Applicable
Flash Point: Not Applicable Auto-ignition Temperature: Not Applicable	Flammability Solid/Gas: Not Applicable Upper/ Lower Flammability or Explosive Limits: Not Applicable
Evaporation Rate: Not Applicable Decomposition Temperature: Not Applicable	Vapor Pressure: Not Applicable Vapor Density: Not Applicable
pH (10% solution): 6.0 – 7.5	Vapor Density: Not Applicable
Vapor Pressure: Not Applicable	Relative Density (Water=1): Not Applicable
Water Solubility: Soluble	Other Solubility: Not Applicable

Section 10: Stability and Reactivity
Reactivity: Will fizz when exposed to moisture, but generally regarded as inert.

Stability: Stable under normal conditions of use. In moist air, tablets may fizz.

Recommendations: Storage in a cool dry place in original sealed packaging.

Section 11: Toxicological Information

This is a personal care/ cosmetic product that is intended to be safe when used as intended. Additional toxicological information is available upon request from raw material suppliers.

Chronic Effects: This product is not expected to have chronic health effects. Generally regarded as non-hazardous.

Anticipated Oral LD50: Category 5
>5000 mg/kg

Target Organs: This product is not expected to have adverse health effects on target organs.

Carcinogenicity: This finished product is not expected to be carcinogenic.

Section 12: Ecological Information

(Not mandated by OSHA but a component of GHS SDS Requirements)

The ingredients in this product are expected to be safe for the environment and ultimately biodegradable under normal use conditions. Packaging is compatible with conventional waste management practices. Additional information is available from raw material suppliers upon request.
