

# Safety Data Sheet

November 2019

## Company Details

Name: Duo Wen, Inc (dba Sparkle Wellness)  
Address: 2611 West Hwy 377, Suite 800, Granbury TX 76048  
Phone: 844-894-3487  
Email: [support@lovesparkle.life](mailto:support@lovesparkle.life)

## 1. Production Identification

This data sheet covers the following Sparkle Wellness products.

1. Skin Boost & Skin Boost Plus, all variations (flavors: Acai Lemonade, Apple Ginger, Mixed Berry, No Flavor, Orange, Tropical, sizes: 30-serves, 50-serves, format: powder & capsules)
2. Joint Boost, all variations (flavors: Mixed Berry, No Flavor, Orange)
3. Collagen Smoothie Mixes, all variations (flavors: Acai Berry Blend, Matcha Coconut, Superfoods Blend, sizes: 7-serves, 14-serves)

## 2. Hazards Identification

### **Potential Health Effects.**

Short term exposure:

1. Inhalation of powder: At very high concentration for prolonged periods of time, inhalation of powder could cause respiratory issues due to swelling of dust as it absorbs body moisture.
2. Skin contact: no detrimental effect
3. Eye contact: no effect is expected
4. Ingestion: is a product intended to be ingested, so no detrimental effect from ingested.
5. Effects of long-term (chronic) exposure: No chronic hazards have been identified.

### 3. Composition & Information on Ingredients

| Product                      | Ingredients, Appearance, Uses   |
|------------------------------|---|
| Skin Boost & Skin Boost Plus | <p><b>Active Ingredients</b><br/>           VERISOL Collagen Peptides, Vitamin C (as Ascorbic Acid) ,Hyaluronic Acid (Plus only)</p> <p><b>Flavoring &amp; Coloring Ingredients</b><br/>           Stevia, citric acid, malic acid, natural flavor extracts, ginger powder, beta-carotene, red beet powder, apple juice powder</p> <p><b>Excipient Ingredients</b><br/>           Silica, Gelatin Capsules (capsules version only)</p> <p><b>Appearance</b><br/>           Powder (Capsules form is powder inside capsules)</p> <p><b>Use</b><br/>           Dietary Supplement</p>   |
| Joint Boost                  | <p><b>Active Ingredients</b><br/>           TENDOFORTE Collagen Peptides, FORTIGEL Collagen Peptides, Buffered Vitamin C (as Calcium Ascorbate)</p> <p><b>Flavoring &amp; Coloring Ingredients</b><br/>           Stevia, citric acid, malic acid, natural flavor extracts, beta-carotene, red beet powder</p> <p><b>Excipient Ingredients</b><br/>           Silica</p> <p><b>Appearance</b><br/>           Powder</p> <p><b>Use</b><br/>           Dietary Supplement</p>   |
| Collagen Smoothie Mixes      | <p><b>Active Ingredients</b><br/>           VERISOL Collagen Peptides, Vitamin C (as Calcium Ascorbate)</p> <p><b>Food Ingredients</b><br/>           Acai Freeze Dried Powder, Blueberry Juice Powder, Chia Protein Powder, Coconut Milk Powder, Coconut Water Powder, Flax Meal, Goji Powder, Mango Juice Powder, Matcha Green Tea Powder, Oat Flour, Orange Juice Powder, Pineapple Juice Powder, Pomegranate Juice Powder, Spirulina, Strawberry Juice Powder, Tart Cherry Juice Powder, Turmeric Powder</p> <p><b>Flavoring &amp; Coloring Ingredients</b><br/>           Stevia, citric acid, malic acid, natural flavor extracts,</p> <p><b>Excipient Ingredients</b><br/>           Acacia Gum, Maltodextrin (Corn, Rice, Tapioca), Silica</p> <p><b>Appearance</b><br/>           Powder</p> <p><b>Use</b><br/>           Food</p> |

## 4. First Aid Measures

### **Inhalation**

Remove from source into fresh air. Seek medical assistance.

### **Skin Contact**

Flush clean with water.

### **Eye Contact**

Flush clean with lukewarm water.

### **Ingestion**

Edible product

## 5. Fire Fighting Measures

|   |   |
|---|---|
| <b>Combustion Characteristic</b>        | May combust at temperatures > 200°C         |
| <b>Flash Point</b>                      | No Data                                     |
| <b>Lower Explosive Limit</b>            | No Data                                     |
| <b>Higher Explosive Limit</b>           | No Data                                     |
| <b>Sensitivity to Mechanical Impact</b> | No Data                                     |
| <b>Hazardous Products of Combustion</b> | Carbon and organic volatile compounds       |
| <b>Fire Extinguishing Media</b>         | Dry Chemical Powder, Foam or Carbon Dioxide |

### **Fire Fighting Instructions**

Remove product from source of heat / ignition to reduce decomposition. Avoid use of water as fire extinguishing media, as may mix with powder to become a paste which could be slippery if on the floor / ground.

## 6. Accidental Release Measures

### **Precautions**

The dry powder is not dangerous if spilled. If a significant enough quantity has been spilled that there is concern of contamination of natural water bodies, government agencies should be alerted.

### **Clean Up**

Spilt product can be swept up and disposed of.

## 7. Handling and Storage

### **Handling**

Good Manufacturing Practice hygiene procedures applicable to handle a food product should be employed at all times.

Any partly used container should be properly sealed before returning to storage.

### **Storage**

A clean, dry and well ventilated area is appropriate for storage. Store in temperatures 15–30°C or 59–86°F

## 8. Exposure Controls / Personal Protection

Low quantity handling (e.g. preparing for consumption) Sparkle does not require any preventative measures.

If handling large quantities for an extended period of time, chemical safety glasses and a respiratory mask should be considered.

## 9. Physical and Chemical Properties

|                                      |                              |
|--------------------------------------|------------------------------|
| <b>Physical State and Appearance</b> | Powder                       |
| <b>Molecular weight</b>              | 600 Da to 10 <sup>6</sup> Da |
| <b>Melting Point</b>                 | Not available                |
| <b>Boiling Point</b>                 | Not available                |
| <b>Specific Gravity</b>              | Not available                |
| <b>Solubility in Water</b>           | Highly soluble               |
| <b>pH Value</b>                      | Not available                |

## 10. Stability and Reactivity

|  |                       |
|--|-----------------------|
| <b>Stability</b>                               | The product is stable |
| <b>Instability Temperature</b>                 | Not available         |
| <b>Incompatibility with various substances</b> | Not available         |
| <b>Corrosivity</b>                             | Not available         |
| <b>Reactivity</b>                              | Not available         |
| <b>Polymerisation</b>                          | Does not occur        |

## 11. Toxicological Information

All ingredients are GRAS.

## 12. Ecological Information

The Sparkle powder products are biodegradable and can be disposed of in land-fill disposal sites, with the exception that the containers are either HDPE or PET, and should be recycled.

### 13. Disposal Information

Waste must be disposed in accordance with federal, state and local environmental control regulations.

### 14. Transport Information

As is a dietary supplement product, should be transported according to GMP requirements.

### 15. Regulatory Information

All Sparkle products that are marketed as a dietary supplement fall under the purview of the FDA dietary supplement regulations.

All Sparkle products that are marketed as a food product fall under the purview of the FDA food regulations.

### 16. Other Information

All reasonable care has been exercised in preparing this information contained in this Safety Data Sheet. No warrantee is made, either express or implied, and Duo Wen, Inc. assumes no responsibility for any injury, illness, or loss or misinterpretation arising from the use of this data.
